

Investor Presentation

NOVEMBER 2023

Forward Looking Statements

As a reminder, we will be presenting certain forward-looking statements on this call that are based on Management's current expectations and views regarding future events and operating performance and are subject to uncertainties and changes in circumstances. Our actual results may differ materially from the forward-looking statements for a number of reasons. Our forward-looking statements are applicable only as of the date of this presentation. For a list of the factors which could affect our future results, including our earnings estimates, see forward-looking statements included in "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations," set forth in our Annual Report on Form 10-K for the fiscal year ended March 31, 2023, which was filed with the U.S. Securities and Exchange Commission.

In addition, we will also be presenting certain non-GAAP financial measures. For an explanation of the differences between the comparable GAAP financial information and the non-GAAP information, please see our company's Form 8-K which includes our press release dated November 8, 2023, which is located on our website at www.enersys.com.

⁴ Represents geographies with EnerSys manufacturing and distribution centers

Well-Positioned for Long-Term Profitable Growth

- Provider of highly differentiated energy solutions with full suite of technologies for diverse end markets
- Strategically aligned with megatrends in large and growing markets
- Resilient business model positioned for strong cash flow generation, profitable growth, and margin expansion
- Strong, flexible balance sheet with clear capital allocation priorities for accelerated earnings growth
- Energized leadership team focused on execution and continuous value creation for all stakeholders

Empowering Our Team to Innovate and Deliver Differentiated Solutions

MISSION

Providing people everywhere with accessible power to help them work and live better

VISION

Serving the global community with mission-critical stored energy solutions

VALUES-DRIVEN CULTURE

Safety & Our Environment	Engagement	Continuous Improvement	Customer Experience	Teamwork	Ethics	Accountability
Ensuring well-being of our employees and communities	Rewarding talent who exhibit enthusiasm, inspiration, commitment, and pride	Driving operational excellence through EnerSys Operating System (EOS)	Focusing on innovation and adaptability to deliver exceptional value	Fostering an environment of collaboration and mutual respect	Demonstrating our integrity by being personally accountable for our actions	Setting clear expectations with common goals and vision

Executing Our Strategic Vision | Significantly Transformed Portfolio

Improved new product Established vision- Integrated Alpha and development time driven culture NorthStar acquisitions Expanded product Deepened capabilities Built teams to execute lines and end markets 2016 Primarily traditional flooded lead-acid battery company Limited scale with narrow set of end markets Innovated foundational Developed EOS Reinforced continuous modular platforms Energy Storage improvement mindset Power Electronics Software

TODAY

Innovating, Optimizing, and Accelerating integrated energy solutions offerings

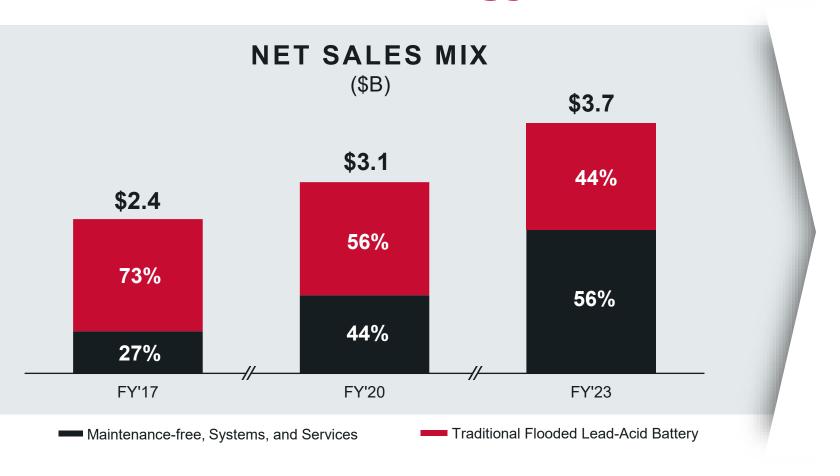

Enhancing modular technology for additional scalability

Providing tailored energy solutions to critical end markets

Compounding growth through differentiated end-to-end solutions

Putting the "Sys" in EnerSys

Product Portfolio Evolution | Transformed to End-to-End Energy Solutions Provider

Business Segments

ENERGY SYSTEMS

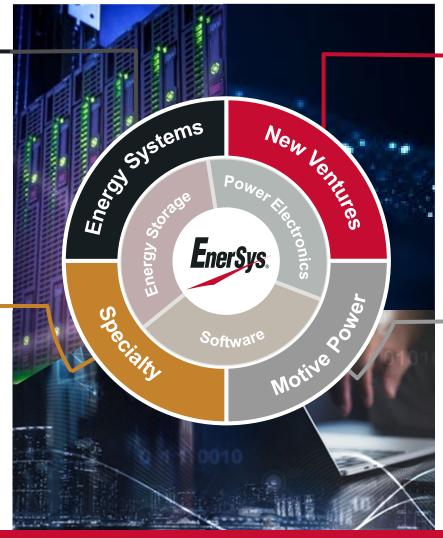

Power conversion, power distribution, and energy storage solutions

- Communication Networks
- Data Centers
- Industrial Power and Utilities

SPECIALTY

Energy solutions for large over-theroad trucks, aerospace and defense, and premium automotive applications

- Transportation
- Aerospace and Defense

NEW VENTURES

Energy storage and management systems for demand charge reduction, utility back-up power, and dynamic fast charging

MOTIVE POWER

Power batteries and chargers for electric forklift trucks and other industrial electric powered vehicles

Logistics and Warehousing

Premium Energy Solutions Powering 6 Diverse End Markets

Foundational Core Modular Platforms

ENERGY STORAGE

Lithium-ion

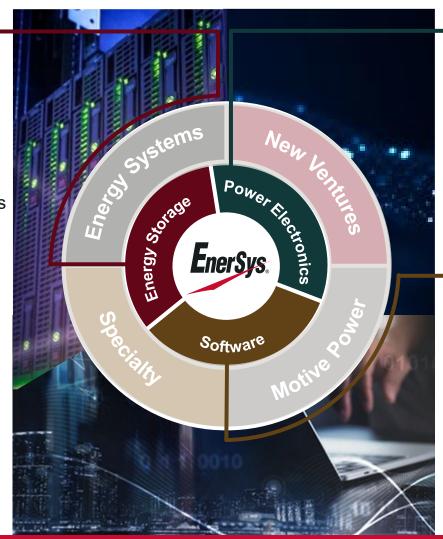

- Maintenance-free
- · Longer cycle life
- Fastest charge rate
- Innovative safety technology
- High power density / heavy duty applications

TPPL

- Maintenance-free
- Light / medium applications

Flooded

Industrial / harsh environment applications

POWER ELECTRONICS

- Advanced, high-efficiency power conversion
- High voltage power transfer with power line communication for 5G small cells
- Wireless power transfer for automated warehouses
- Fast chargers for EVs

SOFTWARE

- Edge computing
- · Efficient data collection to the cloud
- Asset management software
- App support to manage health of assets
- Fleet management with automated service notifications
- Smart batteries

Differentiated Platforms with Enhanced Vertical Capabilities and Tailored Solutions

TPPL: Thin Plate Pure Lead

Addressing Global Megatrends in Attractive and Diverse End Markets

Diverse End Markets

- Communication Networks
 Logistics and Warehousing
- Data Centers
- Industrial Power and Utilities
- Transportation
- Aerospace and Defense

- Modernizing energy grids, storage, and distribution
- Shifting market to EVs

Energy Security

- Increasing resiliency of electrical infrastructure and grid
- Growing need for reliability of mission-critical facilities

Connectivity

- Continuing to rollout 5G with path for 6G
- Expanding broadband to rural areas

Automation

- Challenging labor market and cost-efficiencies
- Implementing autonomy for scalability

Decarbonization

- Improving energy management and reducing emissions
- Evolving regulatory environment (e.g., Set Rule and IRA)

Megatrends Increasing Demand for Energy Solutions

Leveraging Our Sustainable Competitive Advantages

Customer-centric end-to-end solutions provider, from design to asset management software, service, and replacement Product and company differentiation around systems / technology with core competencies at scale

Only fully integrated provider of power hardware, conversion, and software systems to diverse end markets

Large, diverse endmarkets and global customer base supported by strong balance sheet and cash generation Continuous improvement driven by EOS enabling margin expansion opportunities

Maturity Plus Advanced Growth are Key Differentiators

Strategic Priorities Driving Long Term Growth

Compounding Value Creation

- Fast Charge and Storage (FC&S)
- Scalable projects across Energy Systems, Motive Power, and Specialty
- IRA reinforces strategy focused on high volumetric energy dense solutions (100+ Wh/L)

Increasing Higher Value Solutions

- Customer-centric NPIs (volume and mix)
- State-of-the-art technology
- Organic hardware and software

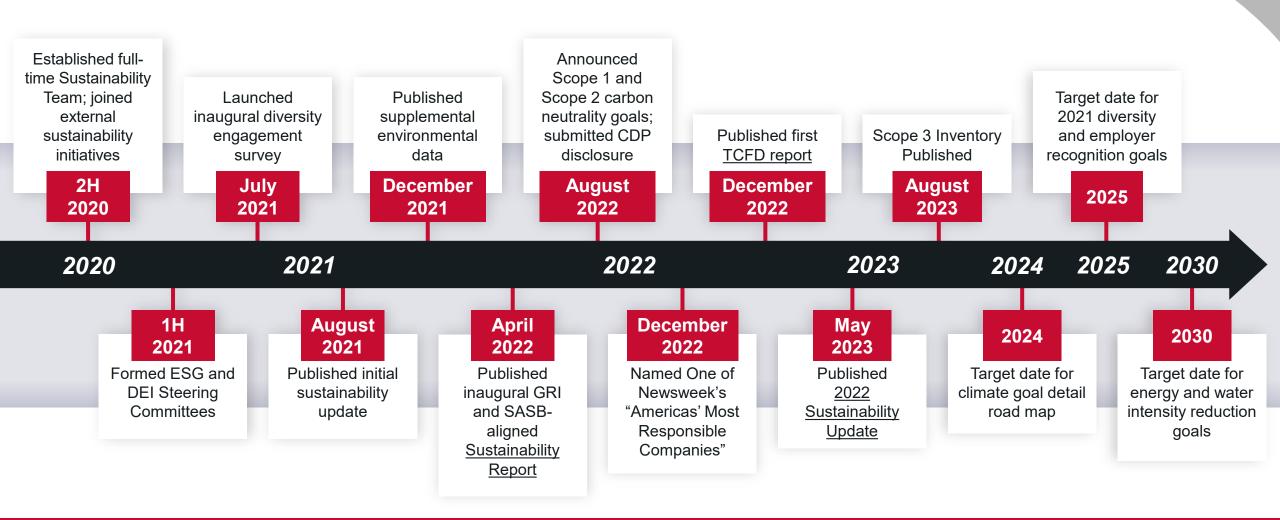

Expanding Margins

- Operational excellence to maximize fixed asset base
- Maintenance-free solutions
- Aftermarket opportunities

Clear and Consistent Strategy with Sustainable Competitive Advantages

Our Sustainability Journey

Our Board and Management Continue to Oversee and Prioritize the Evolution of our Sustainability Journey

Committed to a Sustainable Future

SUSTAINABILITY OF PRODUCTS AND SERVICES

- Driving profitability and growth, with focus on energy transition and customer decarbonization goals
 - Developing circular lithium-ion battery recycling process
- Improving products and services for customers' sustainability needs
- Leveraging online customer portal to optimize battery recycling, reduce environmental impact, and increase profitability

ENVIRONMENTAL STEWARDSHIP

- Tracking emissions metrics
 - Scope 1 goal: neutral by 2040
 ~8% GhG reduction since 2021
 >24% GhG reduction since 2019
 - Scope 2 goal: neutral by 2050
 ~4% GhG reduction since 2021
 - Published 2022 Scope 3 value chain emissions data
- Disclosing water withdrawal volumes at manufacturing sites
 - Goal: reduce water intensity per kWh 25% by 2030
 - 1.4% reduction in water consumption vs. 2021

OUR PEOPLE AND COMMUNITY

- Committed to embedding DEI in business strategy
 - Female representation in leadership up to 13% from 9% between 2021 and 2022
- Created DEI Steering Committee
 - Launched first diversity engagement survey (2021)
- Recognized by Newsweek as one of "America's Most Responsible Companies" in Technology Hardware industry (2023)

SUSTAINABILITY GOVERNANCE

- Assigned Board-level oversight on sustainability
- Created Steering Committee and dedicated sustainability team (2021)
- Awarded EcoVadis silver medal for sustainability governance (2023)
- Embedded sustainability considerations across supply chain
- Published first TCFD-aligned report (2022)

ADJ. OP EARNINGS¹

ADJ. DILUTED EPS1

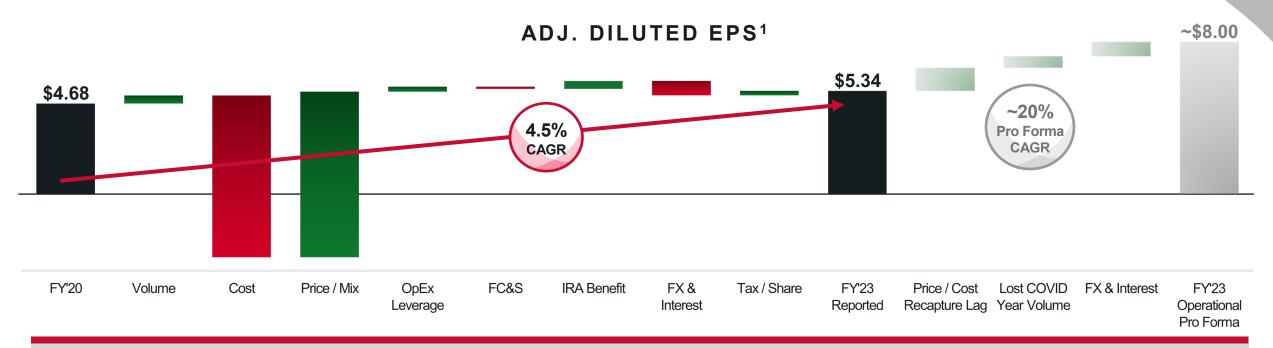

KEY DRIVERS

- Robust demand from growing markets, richer product mix, and price / cost recapture (~\$450M of 0-margin cost recapture)
- \$475M from TPPL expansion from FY'20 to FY'23
- Shifting to higher margin, maintenance-free, and technology-rich solutions
- Reducing costs via EOS and footprint optimization
- Capitalizing on OpEx leverage from disciplined spend
- Offsetting margin pressures from supply chain, inflation, and price / cost recapture lag

- FY'23 earnings muted by FX / interest expense
- ~\$220M in net share repurchases since 2020
- Stable tax rate ~18%

Significant Progress on Initiatives Positions Us Well to Accelerate Profitable Growth

FY'20 to FY'23 Bridge

Segment Performance

- Capitalizing on high-growth end-markets
- Significant price / mix achievements across all lines of business overcame unprecedented market dynamics (supply chain / inflation)
- Costs net of cost savings and productivity headwinds from tight labor markets and supply disruptions

Operational Efficiencies and Wins

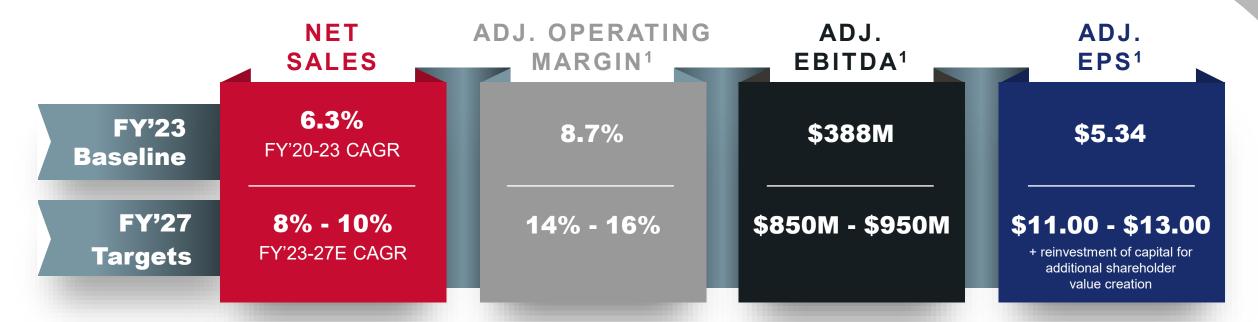

- EOS waste elimination and footprint optimization
- Leverage from OpEx growing slower than Sales
- IRA funding
- Stock buybacks

Headwinds

- FX and interest rates
- Price / cost recapture lag (pro forma applies Q4'23 recapture exit to entire year)
- COVID lost year of revenue growth

Successfully Navigated Through Unprecedented Market Conditions

Clear Path to Achieving FY'27 Targets

- Megatrends accelerate established positions in high growth end-markets
- FC&S supports energy transition
- Mix shifts to higher margin technology-rich products
- EOS drives continuous operational efficiencies, productivity, and waste reduction
- OpEx leverage enables margin expansion
- IRA benefit accelerates domestic lithium strategy, enabling FC&S, and maintenance-free initiatives

Industry-Leading Core Technologies Critical to Energy Transformation and U.S. Independence Combined with Deep Customer Relationships Drive Long-Term Success

Accelerating Growth in Diverse End Markets

Total EnerSys: 8% – 10%

Net Sales FY'23 – 27E CAGR

Energy Systems 6% - 8%

Motive Power **5%** - **7%**

Specialty **10% – 12%**

Fast Charge & Storage Incremental

- Accelerating higher-tech content broadband and telecom solutions
- Maintaining availability of critical power needs
- Expanding globally

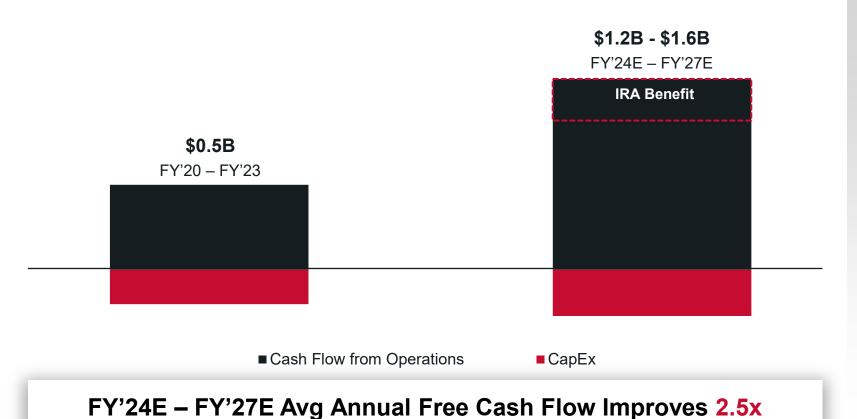

- Growing automation and electrification demand
- Increasing maintenancefree solutions
- Capturing market share with capacity expansion
- Increasing aftermarket penetration
- Supplying critical A&D solutions

 Demonstrates ability to leverage core modular platforms into new high growth markets

Clear Path to Compounding Growth

Significant Free Cash Flow Generation

FREE CASH FLOW¹

DRIVERS

- Revenue and earnings growth
 - Improved volume and price / mix
 - EOS savings
 - Positive OpEx leverage
- POC normalization reduce average percent of net sales from 27% to 23%
- Average FCF conversion ~95%
- CapEx may increase for domestic lithium sourcing and maintenancefree expansion as IRA funds are re-invested

Accelerating Free Cash Flow through Earnings Growth, POC Normalization, and IRA Benefits

Disciplined Capital Allocation Strategy

	PRIORITIES	FY'20 - FY'23 (\$M, cumulative)	
1	Invest in Organic Gr	~\$330	
2	Strategic M&A	~\$180	
3	Net Leverage ¹	1.7x – 2.5x	
4	Return of Capital	Dividends Buybacks	~\$110 ~\$220

FUTURE PRIORITIES

- Continue TPPL capacity investments & end-to-end solutions
- Optimize EOS to drive additional operational efficiencies
- Accelerate domestic-sourced lithium strategy
- Innovate with incremental systems solutions
- Execute opportunistic tuck-in acquisitions
- Target low end of 2x 3x long-term net leverage range

- Committed to competitive dividend yield
- Offset share dilution

Investments Support Significant Shareholder Value Creation

Accretive to Growth / Earnings

ROIC > WACC

- Proven integration capabilities: 32 acquisitions for \$1.3B since 2004
- Expect to maintain 2x 3x net leverage¹ ratio

Acquiring New Capabilities and Driving Economies of Scale in Line with Strategic Vision

Inflation Reduction Act (IRA) Enables...

BACKGROUND

\$369B in New Tax Credits

- Law in effect 1/1/23 12/31/32 with phase out years 8 - 10
- IRC 45X includes third party sales of U.S. manufactured battery cells and modules
- Battery Cell: \$35/kWh for 100+Wh/L density and 12+Wh capacity
- Battery Module: \$10/kWh for 7kWh+
- · Expect additional clarification of tax credits

ENERSYS COMMITMENT

Accelerating Lithium Strategy

- Invest in U.S. domestic energy growth
 - Securing domestic lithium cells
 - Exploring and evaluating development of a U.S. lithium battery factory
 - Timing: cells available in ~3 years
- Provide CapEx to further expand TPPL production capacity in U.S.
- Lithium, TPPL, and flooded lead-acid battery products may qualify depending on energy density

ANNUAL BENEFITS¹

Recorded as reduction to COGS

~60% of EnerSys U.S. battery production currently qualifies

Expected Annual Value to EnerSys:

- Years 1 7: ~\$80 \$120M
- Years 8 10: ~\$40 \$60M

Proceeds will be used as law intended: to further U.S. capacity of energy-dense batteries

...Accelerated Investments in Qualifying Batteries, Including Domestic Lithium Strategy for FC&S and Maintenance-Free Offerings

Compelling Investment Thesis

1

Transformed company delivering innovative solutions and defining the future of energy transition

2

Strategically positioned in expanding markets driven by global megatrends

3

Invigorated leadership team executing a clear strategy for accelerated earnings growth

Playing a Critical Role in Accelerating Energy Transition

Free Cash Flow is a non-GAAP measure. Please refer to appendix for reconciliations.

November 2023

Reconciliations of GAAP to Non-GAAP Financial Measures

This presentation contains financial information determined by methods other than in accordance with U.S. Generally Accepted Accounting Principles, ("GAAP"). EnerSys' management uses the non-GAAP financial measures "adjusted Net earnings", "adjusted Diluted EPS", "adjusted operating earnings", "adjusted EBITDA," "adjusted EBITDA per credit agreement", "net debt", "net leverage ratio", "net sales at constant currency", and "net sales growth rate at constant currency" as applicable, in their analysis of the Company's performance. Adjusted Net earnings and adjusted operating earnings measure, as used by EnerSys in past quarters and years, adjusts Net earnings and operating earnings determined in accordance with GAAP to reflect changes in financial results associated with the Company's restructuring initiatives and other highlighted charges and income items. Adjusted EBITDA is a key performance measure that our management uses to assess our operating performance. Because Adjusted EBITDA facilitates internal comparisons of our historical operating performance on a more consistent basis, we use this measure as an overall assessment of our performance, to evaluate the effectiveness of our business strategies and for business planning purposes. We calculate Adjusted EBITDA as net income before interest income, interest expense, other (income) expense net, provision (benefit) for income taxes, depreciation and amortization, further adjusted to exclude restructuring and exit activities, impairment of goodwill, indefinite-lived intangibles and other assets, acquisition activities and those charges and credits that are not directly related to operating unit performance. EBITDA is calculated as net income before interest income, interest expense, other (income) expense net, provision (benefit) for income taxes, depreciation and amortization. We define non-GAAP adjusted EBITDA per credit agreement as net earnings determined in accordance with GAAP for interest, taxes, depreciation and amortization, and certain charges or credits as permitted by our credit agreements, that were recorded during the periods presented. We define non-GAAP net debt as total debt, finance lease obligations and letters of credit, net of all cash and cash equivalents, as defined in the Third Amended Credit Facility on the balance sheet as of the end of the most recent fiscal quarter. We define non-GAAP net leverage ratio as non-GAAP net debt divided by last twelve months non-GAAP adjusted EBITDA per credit agreement. We define non-GAAP free cash flow as net cash provided by or used in operating activities less capital expenditures. Free cash flow is used by investors, financial analysts, rating agencies and management to help evaluate the Company's ability to generate cash to pursue incremental opportunities aimed toward enhancing shareholder value. We define non-GAAP constant currency net sales as total net sales excluding the effect of foreign exchange rate movements, and we use it to determine the constant currency growth rate on a year-on-year basis. Non-GAAP constant currency revenues are calculated by translating current period revenues using the prior comparative periods' actual exchange rates, rather than the actual exchange rates in effect during the current period. Constant currency net sales growth rate is calculated by determining the difference between current period non-GAAP constant currency net sales and current period reported net sales divided by prior period as reported net sales. Management believes the presentation of these financial measures reflecting these non-GAAP adjustments provides important supplemental information in evaluating the operating results of the Company as distinct from results that include items that are not indicative of ongoing operating results and overall business performance; in particular, those charges that the Company incurs as a result of restructuring activities, impairment of goodwill and indefinite-lived intangibles and other assets, acquisition activities and those charges and credits that are not directly related to operating unit performance, such as significant legal proceedings, amortization of Alpha and NorthStar related intangible assets and tax valuation allowance changes, including those related to the AHV (Old-Age and Survivors Insurance) Financing (TRAF) in Switzerland. Because these charges are not incurred as a result of ongoing operations, or are incurred as a result of a potential or previous acquisition, they are not as helpful a measure of the performance of our underlying business, particularly in light of their unpredictable nature and are difficult to forecast. Although we exclude the amortization of purchased intangibles from these non-GAAP financial measures, management believes that it is important for investors to understand that such intangible assets were recorded as part of purchase accounting and contribute to revenue generation.

Income tax effects of non-GAAP adjustments are calculated using the applicable statutory tax rate for the jurisdictions in which the charges (benefits) are incurred, while taking into consideration any valuation allowances. For those items which are non-taxable, the tax expense (benefit) is calculated at 0%.

EnerSys does not provide a quantitative reconciliation of the company's projected range for fiscal 2027 adjusted operating earnings, adjusted EBITDA, or adjusted diluted earnings per share to operating earnings, EBITDA, or diluted earnings per share, respectively, which are the most directly comparable GAAP measures, in reliance on the unreasonable efforts exception provided under Item 10(e)(1)(i)(B) of Regulation S-K. EnerSys' adjusted measures exclude certain items, including but not limited to certain non-cash, large and/or unpredictable charges and benefits, charges from restructuring and exit activities, impairment of goodwill and indefinite-lived intangibles, acquisition and disposition activities, legal judgments, settlements, or other matters, and tax positions, that are inherently uncertain and difficult to predict, can be dependent on future events that are less capable of being controlled or reliably predicted by management and are not part of the Company's routine operating activities can be dependent on future events that are less capable of being controlled or reliably predicted by management and are not part of the Company's routine operating of these future excluded items, management cannot accurately forecast many of these items for internal use and therefore cannot create a quantitative reconciliation without unreasonable efforts.

These non-GAAP disclosures have limitations as an analytical tool, should not be viewed as a substitute for operating earnings, Net earnings or net income determined in accordance with GAAP, and should not be considered in isolation or as a substitute for analysis of the Company's results as reported under GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies. Management believes that this non-GAAP supplemental information will be helpful in understanding the Company's ongoing operating results. This supplemental presentation should not be construed as an inference that the Company's future results will be unaffected by similar adjustments to Net earnings determined in accordance with GAAP.

- (1) The \$48.4 million adjustment to EBITDA in the last twelve months ending October 1, 2023 primarily related to \$27.6 million of non-cash stock compensation, \$17.6 million of restructuring and other exit charges, impairment of indefinite lived intangibles and other current assets of \$3.6 million. The \$50.1 million adjustment to EBITDA in the last twelve months ending July 2. 2023 primarily related to \$29 million of non-cash stock compensation, \$15.2 million of restructuring and other exit charges, impairment of indefinite lived intangibles and other current assets of \$4.5 million, and \$1.4 million for swap termination fees. The \$51.7 million adjustment to EBITDA in fiscal 2023 primarily related to \$26.4 million of non-cash stock compensation, \$22.4 million of restructuring and other exit charges, impairment of indefinite-lived intangibles of \$0.5 million, and \$1.4 million for swap termination fees. The \$59.8 million adjustment to EBITDA in LTM fiscal Q3 2023 primarily related to \$27.2 million of non-cash stock compensation, \$29.1 million of restructuring and other exit charges, impairment of indefinite-lived intangibles of \$2.1 million and swap termination fee of \$1.4M. The \$62.3 million adjustment to EBITDA in the last twelve months ending October 2, 2022 primarily related to \$26.7 million of non-cash stock compensation, \$28.0 million of discontinuing operations. \$4.0 million of restructuring and other exit charges, \$1.4 million related to termination of a swap agreement, indefinite-lived intangibles of \$1.2 million and \$1.0 million write-down of non-current assets.
- (2) Debt includes finance lease obligations and letters of credit and is net of all cash and cash equivalents, as defined in the Fourth Amended Credit Facility. For the last twelve months ending October 1, 2023, the amounts deducted in the calculation of net debt were U.S. cash and cash equivalents and foreign cash investments of \$327.8 million. In Q1 fiscal 2024, the amounts deducted in the calculation of net debt were all cash and cash equivalents of \$258.3 million. In Q4 fiscal 2023, the amounts deducted in the calculation of net debt were all cash and cash equivalents of \$346.7 million. In Q3 fiscal 2023, the amounts deducted in the calculation of net debt were all cash and cash equivalents of \$298.1 million. In Q2 fiscal 2023, the amounts deducted in the calculations of net debt were all cash and cash equivalents of \$298.1 million.

FREE CASH FLOW

	Quarter ended		
(\$ in millions)	October 1, 2023	October 2, 2022	
Net cash provided by (used in) operating activities	\$110.8	\$1.6	
Less Capital Expenditures	(19.8)	(16.6)	
Free Cash Flow	91.0	(15.0)	
Non-GAAP adjusted Net earnings	\$76.5	\$45.6	
Adjusted Free Cash Flow Conversion	119%	(33%)	

PRIMARY OPERATING CAPITAL

As part of managing the performance of our business, we monitor the level of primary operating capital, and its ratio to net sales. We define primary operating capital as accounts receivable, plus inventories, minus accounts payable. The resulting net amount is divided by the trailing three month net sales (annualized) to derive a primary operating capital percentage. We believe these three elements included in primary operating capital are most operationally driven, and this performance measure provides us with information about the asset intensity and operating efficiency of the business on a company-wide basis that management can monitor and analyze trends over time. Primary operating capital was \$990.2 million (yielding a primary operating capital percentage of 27.5%) at October 1, 2023, \$1,057.0 million (yielding a primary operating capital percentage of 26.7%) at March 31, 2023 and \$1,172.6 million at October 2, 2022 (yielding a primary operating capital percentage of 32.6%). The primary operating capital percentage of 27.5% at October 1, 2023 worsened by 80 basis points compared to March 31, 2023 and improved 510 basis points compared to October 2, 2022. The increase in primary operating capital percentage at October 1, 2023 compared to March 31, 2023 was primarily due to a reduction in sales compared to the fourth fiscal quarter of the prior fiscal year. The decrease in primary operating capital percentage at October 1, 2023 compared to October 2, 2022 was primarily from the sale of \$144.3 million in accounts receivables through a Receivables Purchase Agreement (RPA) entered into during the third quarter of fiscal 2023.

(\$ in millions)	October 1, 2023	March 31, 2023	October 2, 2022
Accounts receivable, net	\$536.5	637.8	\$705.5
