

EnerSys Announces Membership to United Nations Global Compact

December 17, 2021

READING, Pa., Dec. 17, 2021 (GLOBE NEWSWIRE) -- EnerSys (NYSE: ENS), the global leader in stored energy solutions for industrial applications, announced today that it is now a member of the United Nations Global Compact (UNGC). Launched in 2000, the UNGC is focused on helping companies align around ten universally accepted principles in the areas of human rights, labor, environment, and anti-corruption and to ensure that businesses leverage and embody the UN Sustainable Development Goals (SDGs).

David M. Shaffer, EnerSys President and Chief Executive Officer, stated, "Joining the United Nations Global Compact is an important milestone as we advance our sustainability efforts. We are pleased to confirm our support of the Ten Principles, which are fully aligned with our core values. Our business is at the center of the transition to a low-carbon, clean energy future and we look forward to leveraging the UN Global Compact and the UN Sustainable Development Goals to Power the Future – Everywhere for Everyone."

EnerSys membership in the UN Global Compact is part of the company's commitment to a global sustainability strategy. To learn more, please visit our [Sustainability Webpage](#).

With more than 14,000 companies in over 160 countries participating, the UN Global Compact holds members to the highest sustainability standards. A key requirement for participation in the UN Global Compact is an annual submission of a Communication on Progress that highlights company efforts to implement the Ten Principles. About EnerSys

EnerSys, the global leader in stored energy solutions for industrial applications, manufactures and distributes energy systems solutions and motive power batteries, specialty batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure solutions to customers worldwide. Energy Systems, which combine enclosures, power conversion, power distribution and energy storage, are used in the telecommunication, broadband and utility industries, uninterruptible power supplies, and numerous applications requiring stored energy solutions. Motive power batteries and chargers are utilized in electric forklift trucks and other industrial electric powered vehicles. Specialty batteries are used in aerospace and defense applications, large over-the-road trucks, premium automotive, medical and security systems applications. EnerSys also provides aftermarket and customer support services to its customers in over 100 countries through its sales and manufacturing locations around the world. With the NorthStar acquisition, EnerSys has solidified its position as the market leader for premium Thin Plate Pure Lead batteries which are sold across all three lines of business.
