

## EnerSys Announces Expansion of Stock Repurchase Program

November 5, 2014

READING, Pa., Nov. 5, 2014 /PRNewswire/ -- EnerSys (NYSE: ENS) the global leader in stored energy solutions for industrial applications, announced today the establishment of a new \$60 million stock repurchase authorization. With this authorization, the total stock repurchase program in fiscal 2015 is \$214 million. The Company had repurchased \$121 million of EnerSys stock through the second quarter of fiscal 2015. The authorized repurchases will be made from time to time in either the open market or through privately negotiated transactions. The timing, volume and nature of share repurchases will be at the sole discretion of management, dependent on market conditions, applicable securities laws, and other factors, and may be suspended or discontinued at any time. No assurance can be given that any particular amount of common stock will be repurchased. All or part of the repurchases may be implemented under a Rule 10b5-1 trading plan, which would allow repurchases under pre-set terms at times when EnerSys might otherwise be prevented from doing so under insider trading laws or because of self-imposed blackout periods. This repurchase program may be modified, extended or terminated by the Board of Directors at any time.

"I am pleased that we can enhance our stockholders' return on their investment in EnerSys by continuing to repurchase EnerSys' stock," stated John D. Craig, chairman, president and chief executive officer of EnerSys. Mr. Craig added, "The strong earnings and cash flow performance of the Company over the past several years finds EnerSys in a position to have sufficient capital to meet our growth plans, as well as allowing us to increase returns to investors through cash dividends and share repurchases."

For more information, contact Thomas O'Neill, Vice President & Treasurer, EnerSys P.O. Box 14145, Reading, PA 19612-4145, USA. Tel: 610-236-4040; Web site: [www.enersys.com](http://www.enersys.com).

EDITOR'S NOTE: EnerSys, the global leader in stored energy solutions for industrial applications, manufactures and distributes reserve power and motive power batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure solutions to customers worldwide. Motive power batteries and chargers are utilized in electric forklift trucks and other commercial electric powered vehicles. Reserve power batteries are used in the telecommunication and utility industries, uninterruptible power supplies, and numerous applications requiring stored energy solutions including medical, aerospace and defense systems. Outdoor equipment enclosure products are utilized in the telecommunication, cable, utility, transportation industries and by government and defense customers. The company also provides aftermarket and customer support services to its customers from over 100 countries through its sales and manufacturing locations around the world. More information regarding EnerSys can be found at [www.enersys.com](http://www.enersys.com).

### Caution Concerning Forward-Looking Statements

This press release, and oral statements made regarding the subjects of this release, contains forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, or the Reform Act, which may include, but are not limited to, statements regarding EnerSys' earnings estimates, intention to pay quarterly cash dividends, return capital to stockholders, plans, objectives, expectations and intentions and other statements contained in this press release that are not historical facts, including statements identified by words such as "believe," "plan," "seek," "expect," "intend," "estimate," "anticipate," "will," and similar expressions. All statements addressing operating performance, events, or developments that EnerSys expects or anticipates will occur in the future, including statements relating to sales growth, earnings or earnings per share growth, payment of future cash dividends, execution of its stock repurchase program, and market share, as well as statements expressing optimism or pessimism about future operating results or benefits from either its cash dividend or its stock repurchase programs, are forward-looking statements within the meaning of the Reform Act. The forward-looking statements are based on management's current views and assumptions regarding future events and operating performance, and are inherently subject to significant business, economic, and competitive uncertainties and contingencies and changes in circumstances, many of which are beyond the Company's control. The statements in this press release are made as of the date of this press release, even if subsequently made available by EnerSys on its website or otherwise. EnerSys does not undertake any obligation to update or revise these statements to reflect events or circumstances occurring after the date of this press release.

Although EnerSys does not make forward-looking statements unless it believes it has a reasonable basis for doing so, EnerSys cannot guarantee their accuracy. The foregoing factors, among others, could cause actual results to differ materially from those described in these forward-looking statements. For a list of other factors which could affect EnerSys' results, including earnings estimates, see EnerSys' filings with the Securities and Exchange Commission, including "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations," and "Forward-Looking Statements," set forth in EnerSys' Quarterly Report on Form 10-Q for the fiscal period ended September 28, 2014. No undue reliance should be placed on any forward-looking statements.
