Exhibit 99.1 PRESS RELEASE, DATED NOVEMBER 6, 2013, OF ENERSYS REGARDING FINANCIAL RESULTS FOR THE SECOND QUARTER FISCAL 2014

EnerSys Reports Second Quarter Fiscal 2014 Results

Reading, PA, USA, November 6, 2013 -- EnerSys (NYSE: ENS) the global leader in stored energy solutions for industrial applications, announced today results for its second quarter of fiscal 2014, which ended on September 29, 2013.

Net earnings attributable to EnerSys stockholders (“Net earnings”) for the second quarter of fiscal 2014 were \$41.4 million, or \$0.84 per diluted share, including an unfavorable net of tax impact of \$0.03 per share from a charge of \$0.8 million for restructuring plans and \$0.8 million for fees related to acquisition activities. The Net earnings of \$0.84 per diluted share, compares to Net earnings per diluted share of \$0.90 for the second quarter of fiscal 2013, which included an unfavorable net of tax charge of \$0.02 per share from a charge of \$1.0 million for restructuring plans. Lower operating earnings in the second quarter of fiscal 2014 reflect the impact of higher commodity costs and operating expenses partially offset by higher sales volume and pricing as compared to the second quarter of fiscal 2013.

Excluding these highlighted items, adjusted Net earnings per diluted share for the second quarter of fiscal 2014, on a non-GAAP basis was \$0.87, which exceeds the guidance of \$0.81 to \$0.85 per diluted share given by the Company on August 7, 2013. These earnings compare to the prior year second quarter adjusted Net earnings of \$0.92 per diluted share. Please refer to the section included herein under the heading “Reconciliation of Non-GAAP Financial Measures” for a discussion of the Company’s use of non-GAAP adjusted financial information.

Net sales for the second quarter of fiscal 2014 were \$568.8 million, a 3% increase from the prior year second quarter net sales of \$554.2 million. Sequential quarterly sales decreased 5% from the first quarter of fiscal 2014 net sales of \$597.3 million primarily due to a seasonal decrease in organic volume during the summer vacation months in Europe and the U.S.

The Company’s operating results for its business segments for the second quarters of fiscal 2014 and 2013 are as follows:

	Quarter ended	
	(\$ millions)

Net earnings for the six months of fiscal 2014 were \$82.2 million or \$1.67 per diluted share, including an unfavorable net of tax impact of \$0.03 per share from a charge of \$1.1 million for restructuring plans and \$0.8 million for fees related to acquisition activities.

Net earnings for the six months of fiscal 2013 were \$89.6 million or \$1.84 per diluted share, including an unfavorable net of tax impact of \$0.03 per share from a charge of \$1.3 million for restructuring plans and \$0.1 million for fees related to acquisition activities.

Adjusted net earnings for the six months of fiscal 2014, on a non-GAAP basis, were \$1.70 per diluted share. This compares to the prior year six months adjusted net earnings of \$1.87 per diluted share. Please refer to the section included herein under the heading "Reconciliation of Non-GAAP Financial Measures" for a discussion of the Company's use of non-GAAP adjusted financial information.

Net sales for the six months of fiscal 2014 were \$1,166.1 million, an increase of 2% from the net sales of \$1,148.1 million in the comparable period in fiscal 2013. The 2% increase was the result of a slight increase in organic volume, pricing and foreign currency translation impact.

The Company's operating results for its business segments for the six months of fiscal years 2014 and 2013 are as follows:

	Six months ended	
	(\$ millions)	
	September 29, 2013	September 30, 2012

“Due to summer vacations, our second quarter is traditionally our weakest. I am pleased with our second quarter adjusted operating earnings of 11.1% and our adjusted earnings of \$0.87 per diluted share which exceeded both our guidance and the results of our previous quarter,” stated John D. Craig, chairman, president and chief executive officer of EnerSys.

Mr. Craig added, “As we stated in our last quarterly call, we believed our second half of fiscal 2014 will exceed the results of our first half. With our guidance for non-GAAP adjusted net earnings per share of between \$1.00 to \$1.04 for the third quarter, we continue to believe this.” This guidance excludes an expected net credit of \$0.10 from a tax benefit, net of our ongoing restructuring programs and acquisition expenses.

Reconciliation of Non-GAAP Financial Measures

This press release contains financial information determined by methods other than in accordance with U.S. Generally Accepted Accounting Principles, ("GAAP"). EnerSys' management uses the non-GAAP measure "adjusted Net earnings" in their analysis of the Company's performance. This measure, as used by EnerSys in past quarters and years, adjusts Net earnings determined in accordance with GAAP to reflect changes in financial results associated with the Company's restructuring initiatives and other highlighted charges and income items. Management believes the presentation of this financial measure reflecting these non-GAAP adjustments provides important supplemental information in evaluating the operating results of the Company as distinct from results that include items that are not indicative of ongoing operating results; in particular, those charges that the Company incurs as a result of restructuring activities and those charges and credits that are not directly related to operating unit performance, such as fees and expenses related to acquisition activities. Because these charges are not incurred as a result of ongoing operations or are incurred as a result of a potential acquisition, they are not a helpful measure of the performance of our underlying business particularly in light of their unpredictable nature. This non-GAAP disclosure has limitations as an analytical tool, should not be viewed as a substitute for net earnings determined in accordance with GAAP, and should not be considered in isolation or as a substitute for analysis of the Company's results as reported under GAAP, nor is it necessarily comparable to non-GAAP performance measures that may be presented by other companies. Management believes that this non-GAAP supplemental information will be helpful in understanding the Company's ongoing operating results. This supplemental presentation should not be construed as an inference that the Company's future results will be unaffected by similar adjustments to net earnings determined in accordance with GAAP.

Included below is a reconciliation of non-GAAP adjusted financial measures to reported amounts. Non-GAAP adjusted Net earnings are calculated excluding restructuring and other highlighted charges and credits. The following tables provide additional information regarding certain non-GAAP measures:
