ENERSYS REPORTS FOURTH QUARTER AND FULL YEAR FISCAL 2024 RESULTS DELIVERS GROSS MARGIN OF 27.9%, UP 300 BASIS POINTS FROM PRIOR YEAR

Fourth Quarter Fiscal 2024 Highlights

(All comparisons against the fourth quarter of fiscal year 2023 unless otherwise noted)

- Delivered net sales of \$911M, down 8%, primarily driven by temporary spending pauses in telecom and broadband
- Achieved GM of 27.9%, +300 bps, and adjusted GM^(b) of 28.0%, +310 bps, including \$36M benefit from Inflation Reduction Act / IRC 45X tax credits
- Realized diluted EPS of \$1.48, down 7%, and adjusted diluted EPS⁽¹⁾ of \$2.08, +14%
- Reduced net leverage ratio ^(a) to 1.0 X EBITDA on operating cash flow of \$137M
- In May, published [2023 Sustainability Report](#)
- In May, announced agreement to acquire Bren-Tronics, a leading U.S. manufacturer of portable power solutions

Full Year Fiscal 2024 Highlights

(All comparisons against 2023 unless otherwise noted)

- Delivered net sales of \$3.6B, down 3%
- Achieved GM of 27.4%, +470 bps, and adjusted GM ^(b) of 28.0%, +530 bps, including \$136M benefit from Inflation Reduction Act / IRC 45X tax credits
- Realized record diluted EPS of \$6.50, +53% and adjusted diluted EPS of \$8.35 +56%
- Reported operating cash flow of \$457M, +\$177M
- Returned \$130M to shareholders through share repurchases and dividends

READING, Pa., May 22, 2024 (BUSINESS WIRE) -- [EnerSys](#) (NYSE: ENS), the global leader in stored energy solutions for industrial applications, announced today results for its fourth quarter and full year fiscal 2024, which ended on March 31, 2024.

Message from the CEO

We delivered a strong finish to the fiscal year with our balanced business portfolio delivering solid results, highlighted by adjusted earnings per share at the high end of our guidance range. In the fourth quarter, net sales were down versus prior year, in line with our expectations, as positive momentum in the majority of our end markets continued to be muted by spending pauses in telecom and broadband. We generated gross margin improvement and adjusted operating earnings growth in our base business, which were bolstered by IRC 45X tax credits. In addition, we are realizing the benefits of our cost improvement actions in Energy Systems, and we are positioning the business to benefit from future growth opportunities. Our Motive Power revenue increased with higher demand offsetting some of the decline in our Energy Systems business. We continue to see increasing customer conversions as maintenance-free sales, including lithium solutions, reached a record 25% of Motive Power sales in the quarter. Data Center growth was a bright spot, up 10% sequentially, bringing data center revenue to 10% of total company revenue, up from 8% in prior year fourth quarter. In our Specialty business, performance was supported by productivity improvements in our Missouri factory. We continue to progress toward full commercialization of our Fast Charge and Storage (FC&S) solution and are on track for our first system installations in late summer 2024.

We are advancing on the development of our lithium-ion cell gigafactory. During the quarter, we selected Greenville, South Carolina, as the location and we secured state and local funding totaling \$200 million. EnerSys has applied to the Department of Energy for additional funding with awards expected to be announced in August. We intend to use the IRC 45X tax credits to increase our investments in domestic manufacturing of energy dense batteries, as the law intended.

Subsequent to the end of the quarter, we were very pleased to announce our agreement to acquire Bren-Tronics, a leading U.S. manufacturer of portable power solutions, which will expand our presence in critical defense applications, broaden our product offerings, and strengthen our product development capabilities. The acquisition will be immediately accretive to our earnings upon closing, which is expected near the end of our fiscal first quarter.

Fiscal 2024 was a year of several achievements toward our long-term strategic goals, as we navigated through a challenging environment. We are confident that the foundation we put in place this year, coupled with the investments we have made in our transformation, will yield accelerating results in the coming years. Energy scarcity will continue to be a global concern as megatrends are driving rapid growth in demand for reliable power. As a critical supplier of energy systems and energy storage solutions, EnerSys is strategically positioned to capitalize on this growth. Looking to fiscal 2025 and beyond, we remain focused on achieving the long-term targets we set at our Investor Day and delivering long-term value to our stockholders.

David M. Shaffer, President and Chief Executive Officer, EnerSys

(a) Net leverage ratio is a non-GAAP financial measure as defined pursuant to our credit agreement and discussed under *Reconciliations of GAAP to Non-GAAP Financial Measures*.

(b) Adjusted gross margin, and adjusted free cash flow conversion are non-GAAP financial measures defined and discussed under *Reconciliations of GAAP to Non-GAAP Financial Measures*.

(1) Adjusted Diluted EPS is a non-GAAP financial measure and discussed under *Reconciliations of GAAP to Non-GAAP Financial Measures*.

(2) Operating Earnings are adjusted for charges that the Company incurs as a result of restructuring and exit activities, impairment of goodwill and indefinite-lived intangibles and other assets, acquisition activities and those charges and credits that are not directly related to operating unit performance. A reconciliation of operating earnings to Non-GAAP Adjusted Earnings are provided in tables under the section titled *Business Segment Operating Results*.

(3) Non-GAAP EBITDA is calculated as net earnings adjusted for depreciation, amortization, interest and income taxes. Non-GAAP Adjusted EBITDA is further adjusted for certain charges such as restructuring and exit activities, impairment of goodwill and indefinite-lived intangibles and other assets, acquisition activities and other charges and credits as discussed under *Reconciliations of GAAP to Non-GAAP Financial Measures*.

Summary of Results

Fourth Quarter 2024

Net sales for the fourth quarter of fiscal 2024 were \$910.7 million, a decrease of 8.0% from the prior year fourth quarter net sales of \$989.9 million. The decrease compared to prior year quarter was the result of a 7% decrease in organic volume and a 1% decrease in foreign currency translation impact.

Net earnings attributable to EnerSys stockholders (“Net earnings”) for the fourth quarter of fiscal 2024 was \$60.9 million, or \$1.48 per diluted share, which included an unfavorable highlighted net of tax impact of \$24.3 million, or \$0.60 per diluted share, from highlighted items described in further detail in the tables shown below, reconciling non-GAAP adjusted financial measures to reported amounts.

Net earnings for the fourth quarter of fiscal 2023 was \$65.9 million, or \$1.59 per diluted share, which included an unfavorable highlighted net of tax impact of \$9.5 million, or \$0.23 per diluted share, from highlighted items described in further detail in the tables shown below, reconciling non-GAAP adjusted financial measures to reported amounts.

Excluding these highlighted items, adjusted Net earnings per diluted share for the fourth quarter of fiscal 2024, on a non-GAAP basis, were \$2.08, compared to the guidance of \$1.98 to \$2.08 per diluted share for the fourth quarter given by the Company on February 7, 2024. These earnings compare to the prior year fourth quarter adjusted Net earnings of \$1.82 per diluted share. Please refer to the section included herein under the heading “Reconciliations of GAAP to Non-GAAP Financial Measures” for a discussion of the Company’s use of non-GAAP adjusted financial information, which includes tables reconciling GAAP and non-GAAP adjusted financial measures for the quarters ended March 31, 2024 and March 31, 2023.

In the first quarter of fiscal 2024, we introduced a new line of business, New Ventures, that includes energy storage and management systems for demand charge reduction, utility back-up power, and dynamic fast charging for electric vehicles. The financial results of the New Ventures segment includes start up operating expenses and is included in the Corporate and other line in our operating earnings.

Fiscal Year 2024

Net sales for the twelve months of fiscal 2024 were \$3,581.8 million, a decrease of 3.4% from the prior year twelve months net sales of \$3,708.5 million. This decrease was due to a 7% decrease in organic volume, partially offset by a 4% increase in pricing.

Net earnings for the twelve months of fiscal 2024 was \$269.1 million, or \$6.50 per diluted share, which included an unfavorable highlighted net of tax impact of \$76.2 million, or \$1.85 per diluted share, from highlighted items described in further detail in the tables shown below, reconciling non-GAAP adjusted financial measures to reported amounts.

Net earnings for the twelve months of fiscal 2023 was \$175.8 million, or \$4.25 per diluted share, which included an unfavorable highlighted net of tax impact of \$45.0 million, or \$1.09 per diluted share, from highlighted items described in further detail in the tables shown below, reconciling non-GAAP adjusted financial measures to reported amounts.

Adjusted Net earnings per diluted share for the twelve months of fiscal 2024, on a non-GAAP basis, were \$8.35. This compares to the prior year twelve months adjusted Net earnings of \$5.34 per diluted share. Please refer to the section included herein under the heading “Reconciliations of GAAP to Non-GAAP Financial Measures” for a discussion of the Company’s use of non-GAAP adjusted financial information.

First Quarter and Full Year 2025 Outlook

Beginning with the first quarter of 2025, EnerSys is making changes to its quarterly guidance metrics. The Company will now provide guidance on net sales and adjusted diluted earnings per share on a quarterly and fiscal year basis. The Company believes this information will provide a clearer view of its anticipated financial performance.

In the first quarter of fiscal 2025, EnerSys expects:

- Net sales in the range of \$860M to \$900M
- Adjusted diluted earnings per share in the range of \$1.93 to \$2.03*

For the full year fiscal 2025, EnerSys expects:

- Net sales in the range of \$3,675M to \$3,825M
- Adjusted diluted earnings per share in the range of \$8.55 to \$8.95*
- Capital expenditures in the range of \$100M to \$120M

"We remain optimistic about the trajectory of our business and are on track to achieve the aggregate fiscal year 2027 targets we set at our Investor Day in June 2023. While we are seeing healthy demand trends in the majority of our end markets, we are managing our business prudently to navigate the temporary spending pauses by our telecom and broadband customers. In the first quarter, we expect seasonally lower volume in Motive Power and continued telecom and broadband spending pauses in Energy Systems. We expect to see some cost improvements and benefits from operational efficiencies flowing through to our bottom line. For fiscal year 2025, we expect volume growth driven by maintenance-free products in Motive Power, an increase in transportation aftermarket sales, and our first revenues from Fast Charge and Storage, with only moderate recovery in telecom and broadband markets to begin to occur towards the end of the fiscal year. The need for intelligent energy storage and management systems will only increase as the demand for electricity is significantly outpacing the capacity of the global grid

infrastructure. EnerSys is well-positioned to capitalize on market opportunities as we deliver innovative products that are strategically aligned with these secular trends," said Andrea Funk, EnerSys Chief Financial Officer.

*Inclusive of IRC 45X tax benefits under the IRA. Note that the IRS has not yet finalized guidance related to section 45X, which could materially increase or decrease the quantity of our U.S. produced batteries that qualify for this credit.

Please refer to the section included herein under the heading "Reconciliations of GAAP to Non-GAAP Financial Measures" for a discussion of the Company's use of non-GAAP adjusted financial information.

Conference Call and Webcast Details

The Company will host a conference call to discuss its fourth quarter and full year 2024 financial results at 9:00 AM (EST) Thursday, May 23, 2024. A live broadcast as well as a replay of the call can be accessed via <https://edge.media-server.com/mmc/p/xu2zf64r/> or the Investor Relations section of the company's website at <https://investor.enersys.com>.

To join the live call, please register at <https://register.vevent.com/register/B178f078f5018241cf976352875e14708b>. A dial-in and unique PIN will be provided upon registration.

About EnerSys

EnerSys is the global leader in stored energy solutions for industrial applications and designs, manufactures and distributes energy systems solutions and motive power batteries, specialty batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure solutions to customers worldwide. The company goes to market through four lines of business: Energy Systems, Motive Power, Specialty and New Ventures. Energy Systems, which combine power conversion, power distribution, energy storage, and enclosures, are used in the telecommunication, broadband, and utility industries, uninterruptible power supplies, and numerous applications requiring stored energy solutions. Motive power batteries and chargers are utilized in electric forklift trucks and other industrial electric powered vehicles. Specialty batteries are used in aerospace and defense applications, large over-the-road trucks, premium automotive, medical and security systems applications. New Ventures provides energy storage and management systems for various applications including demand charge reduction, utility back-up power, and dynamic fast charging for electric vehicles. EnerSys also provides aftermarket and customer support services to its customers in over 100 countries through its sales and manufacturing locations around the world. More information regarding EnerSys can be found at www.enersys.com.

Sustainability

Sustainability at EnerSys is about more than just the benefits and impacts of our products. Our commitment to sustainability encompasses many important environmental, social and governance issues. Sustainability is a fundamental part of how we manage our own operations. Minimizing our environmental footprint is a priority. Sustainability is our commitment to our employees, our customers and the communities we serve. Our products facilitate positive environmental, social, and economic impacts around the world. Caution Concerning Forward-Looking Statements

This press release, and oral statements made regarding the subjects of this release, contains forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, or the Reform Act, which may include, but are not limited to, statements regarding EnerSys' earnings estimates, intention to pay quarterly cash dividends, return capital to stockholders, plans, objectives, expectations and intentions and other statements contained in this press release that are not historical facts, including statements identified by words such as "believe," "plan," "seek," "expect," "intend," "estimate," "anticipate," "will," and similar expressions. All statements addressing operating performance, events, or developments that EnerSys expects or anticipates will occur in the future, including statements relating to sales growth, earnings or earnings per share growth, order intake, backlog, payment of future cash dividends, commodity prices, execution of its stock buyback program, judicial or regulatory proceedings, ability to identify and realize benefits in connection with acquisition and disposition opportunities, and market share, as well as statements expressing optimism or pessimism about future operating results or benefits from its cash dividend, its stock buyback programs, application of Section 45X of the Internal Revenue Code, future responses to and effects of the pandemic, adverse developments with respect to the economic conditions in the U.S. in the markets in which we operate and other uncertainties, including the impact of supply chain disruptions, interest rate changes, inflationary pressures, geopolitical and other developments and labor shortages on the economic recovery and our business are forward-looking statements within the meaning of the Reform Act. The forward-looking statements are based on management's current views and assumptions regarding future events and operating performance, and are inherently subject to significant business, economic, and competitive uncertainties and contingencies and changes in circumstances, many of which are beyond the Company's control. The statements in this press release are made as of the date of this press release, even if subsequently made

available by EnerSys on its website or otherwise. EnerSys does not undertake any obligation to update or revise these statements to reflect events or circumstances occurring after the date of this press release.

Although EnerSys does not make forward-looking statements unless it believes it has a reasonable basis for doing so, EnerSys cannot guarantee their accuracy. The foregoing factors, among others, could cause actual results to differ materially from those described in these forward-looking statements. For a list of other factors which could affect EnerSys' results, including earnings estimates, see EnerSys' filings with the Securities and Exchange Commission, including "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations," and "Forward-Looking Statements," set forth in EnerSys' Annual Report on Form 10-K for the fiscal year ended March 31, 2024. No undue reliance should be placed on any forward-looking statements.

Reconciliations of GAAP to Non-GAAP Financial Measures

This press release contains financial information determined by methods other than in accordance with U.S. Generally Accepted Accounting Principles, ("GAAP"). EnerSys' management uses the non-GAAP measures "adjusted Net earnings", "adjusted Diluted EPS", "adjusted operating earnings", "adjusted gross margin", "EBITDA", "adjusted EBITDA", "adjusted EBITDA per credit agreement", "net debt", "net leverage ratio", "adjusted free cash flow conversion", "net sales at constant currency", and "net sales growth rate at constant currency" as applicable, in their analysis of the Company's performance. Adjusted Net earnings, adjusted gross margin, and adjusted operating earnings measures, as used by EnerSys in past quarters and years, adjusts Net earnings and operating earnings determined in accordance with GAAP to reflect changes in financial results associated with the Company's restructuring initiatives and other highlighted charges and income items. Adjusted EBITDA is a key performance measure that our management uses to assess our operating performance. Because Adjusted EBITDA facilitates internal comparisons of our historical operating performance on a more consistent basis, we use this measure as an overall assessment of our performance, to evaluate the effectiveness of our business strategies and for business planning purposes. We calculate Adjusted EBITDA as net income before interest income, interest expense, other (income) expense net, provision (benefit) for income taxes, depreciation and amortization, further adjusted to exclude restructuring and exit activities, impairment of goodwill, indefinite-lived intangibles and other assets, acquisition activities and those charges and credits that are not directly related to operating unit performance. EBITDA is calculated as net income before interest income, interest expense, other (income) expense net, provision (benefit) for income taxes, depreciation and amortization. We define non-GAAP adjusted EBITDA per credit agreement as net earnings determined in accordance with GAAP for interest, taxes, depreciation and amortization, and certain charges or credits as permitted by our credit agreements, that were recorded during the periods presented. We define non-GAAP net debt as total debt, finance lease obligations and letters of credit, net of all cash and cash equivalents, as defined in the Fourth Amended Credit Facility on the balance sheet as of the end of the most recent fiscal quarter. We define non-GAAP net leverage ratio as non-GAAP net debt divided by last twelve months non-GAAP adjusted EBITDA per credit agreement. We define non-GAAP free cash flow as net cash provided by or used in operating activities less capital expenditures. We define non-GAAP adjusted free cash flow conversion as free cash flow divided by adjusted net earnings. Free cash flow and adjusted free cash flow conversion are used by investors, financial analysts, rating agencies and management to help evaluate the Company's ability to generate cash to pursue incremental opportunities aimed toward enhancing shareholder value. We define non-GAAP constant currency net sales as total net sales excluding the effect of foreign exchange rate movements, and we use it to determine the constant currency growth rate on a year-on-year basis. Non-GAAP constant currency revenues are calculated by translating current period revenues using the prior comparative periods' actual exchange rates, rather than the actual exchange rates in effect during the current period. Constant currency net sales growth rate is calculated by determining the difference between current period non-GAAP constant currency net sales and current period reported net sales divided by prior period as reported net sales. Management believes the presentation of these financial measures reflecting these non-GAAP adjustments provides important supplemental information in evaluating the operating results of the Company as distinct from results that include items that are not indicative of ongoing operating results and overall business performance; in particular, those charges that the Company incurs as a result of restructuring activities, impairment of goodwill and indefinite-lived intangibles and other assets, acquisition activities and those charges and credits that are not directly related to operating unit performance, such as significant legal proceedings, amortization of Alpha and NorthStar related intangible assets (and, beginning in fiscal 2024, amortization of all intangible assets) and tax valuation allowance changes, including those related to the AHV (Old-Age and Survivors Insurance) Financing (TRAF) in Switzerland. Because these charges are not incurred as a result of ongoing operations, or are incurred as a result of a potential or previous acquisition, they are not as helpful a measure of the performance of our underlying business, particularly in light of their unpredictable nature and are difficult to forecast. Although we exclude the amortization of purchased intangibles from these non-GAAP measures, management believes that it is important for investors to understand that such intangible assets were recorded as part of purchase accounting and contribute to revenue generation.

Income tax effects of non-GAAP adjustments are calculated using the applicable statutory tax rate for the jurisdictions in which the charges (benefits) are incurred, while taking into consideration any valuation allowances. For those items which are non-taxable, the tax expense (benefit) is calculated at 0%.

EnerSys does not provide a quantitative reconciliation of the Company's projected range for adjusted diluted earnings per share for the first quarter of fiscal 2025 to diluted earnings per share, which is the most directly comparable GAAP measure, in reliance on the unreasonable efforts exception provided under Item 10(e)(1)(i)(B) of Regulation S-K. EnerSys' adjusted diluted earnings per share guidance for the first quarter of fiscal 2025 excludes certain items, including but not limited to certain non-cash, large and/or unpredictable charges and benefits, charges from restructuring and exit activities, impairment of goodwill and indefinite-lived intangibles, acquisition and disposition activities, legal judgments, settlements, or other matters, and tax positions, that are inherently uncertain and difficult to predict, can be dependent on future events that are less capable of being controlled or reliably predicted by management and are not part of the Company's routine operating activities can be dependent on future events that are less capable of being controlled or reliably predicted by management and are not part of the Company's routine operating activities. Due to the uncertainty of the occurrence or timing of these future excluded items, management cannot accurately forecast many of these items for internal use and therefore cannot create a quantitative adjusted diluted earnings per share for the first quarter of fiscal 2025 to diluted earnings per share reconciliation without unreasonable efforts.

These non-GAAP disclosures have limitations as an analytical tool, should not be viewed as a substitute for operating earnings, Net earnings or net income determined in accordance with GAAP, and should not be considered in isolation or as a substitute for analysis of the Company's results as reported under GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies. Management believes that this non-GAAP supplemental information will be helpful in understanding the Company's ongoing operating results. This supplemental presentation should not be construed as an inference that the Company's future results will be unaffected by similar adjustments to Net earnings determined in accordance with GAAP.

A reconciliation of non-GAAP net sales and growth rates in constant currency are set forth in the table below, providing a reconciliation of non-GAAP constant currency net sales to the Company's reported net sales for its business segments.

	Quarter ended (\$ millions)			Twelve months ended (\$ millions)		
	March 31, 2024	March 31, 2023	Growth rate	March 31, 2024	March 31, 2023	Growth rate

Total constant currency net sales	<u>926.7</u>		(6.4)	<u>3,593.1</u>		(3.1)

A reconciliation of non-GAAP adjusted operating earnings is set forth in the table below, providing a reconciliation of non-GAAP adjusted operating earnings to the Company's reported operating results for its business segments. Corporate and other includes amounts managed on a company-wide basis and not directly allocated to any reportable segments, primarily relating to IRA production tax credits. Also, included are start up costs for exploration of a new lithium plant as well as start-up operating expenses from the New Ventures operating segment.

The following table provides a reconciliation of Net earnings to EBITDA (non-GAAP) and adjusted EBITDA (non-GAAP) per credit agreement for March 31, 2024 and March 31, 2023, in connection with the Fourth Amended Credit Facility:

	Last twelve months	
	March 31, 2024	March 31, 2023
	(in millions, except ratios)	
Net earnings as reported	\$ 269.1	\$ 175.8
Add back:		
Depreciation and amortization	92.0	\$ 91.2
Interest expense	49.9	\$ 59.5
Income tax expense	23.1	34.8
EBITDA (non-GAAP)	434.1	\$ 361.3
Adjustments per credit agreement definitions ⁽¹⁾	85.8	51.7
Adjusted EBITDA (non-GAAP) per credit agreement ⁽¹⁾	\$ 519.9	413.0
Total net debt ⁽²⁾	511.1	736.0
Leverage ratios:		
Total net debt/credit adjusted EBITDA ratio	1.0 X	1.8 X

- (1) The \$85.8 million adjustment to EBITDA in the last twelve months ending March 31, 2024 primarily related to \$30.6 million of non-cash stock compensation, \$40.7 million of restructuring and other exit charges, impairment of indefinite-lived intangibles and write-down of other current assets of \$13.6 million. The \$51.7 million adjustment to EBITDA in the last twelve months ending March 31, 2023 is primarily related to \$26.4 million of non-cash stock compensation, \$22.4 million of restructuring and other exit charges, impairment of indefinite-lived intangibles of \$0.5 million and a swap termination fee of \$1.4 million.
- (2) Debt includes finance lease obligations and letters of credit and is net of all U.S. cash and cash equivalents and foreign cash and investments, as defined in the Fourth Amended Credit Facility. In the last twelve months ending March 31, 2024 and March 31, 2023, the amounts deducted in the calculation of net debt were U.S. cash and cash equivalents and foreign cash investments of \$333.3 million, and in fiscal 2023, were \$347.0 million.

Included below is a reconciliation of historical non-GAAP adjusted Net earnings to reported amounts. Non-GAAP adjusted operating earnings and historical Net earnings are calculated excluding restructuring and other highlighted charges and credits. The following tables provide additional information regarding certain non-GAAP measures:

	Quarter ended	
	<i>(in millions, except share and per share amounts)</i>	
	March 31, 2024	March 31, 2023

ENERSYS ANNOUNCES DIVIDEND of \$0.225 PER SHARE FOR THE FIRST QUARTER OF FISCAL YEAR 2025

Reading, PA, USA, May 22, 2024 – EnerSys (NYSE: ENS), the global leader in stored energy solutions for industrial applications, announced today that its Board of Directors has declared a quarterly cash dividend of \$0.225 per share of common stock payable on June 28, 2024, to holders of record as of June 14, 2024.

About EnerSys

EnerSys is the global leader in stored energy solutions for industrial applications and designs, manufactures and distributes energy systems solutions and motive power batteries, specialty batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure solutions to customers worldwide. The company goes to market through four lines of business: Energy Systems, Motive Power, Specialty and New Ventures. Energy Systems, which combine power conversion, power distribution, energy storage, and enclosures, are used in the telecommunication, broadband and utility industries, uninterruptible power supplies, and numerous applications requiring stored energy solutions. Motive power batteries and chargers are utilized in electric forklift trucks and other industrial electric powered vehicles. Specialty batteries are used in aerospace and defense applications, large over-the-road trucks, premium automotive, medical and security systems applications. New Ventures provides energy storage and management systems for various applications including demand charge reduction, utility back-up power, and dynamic fast charging for electric vehicles. EnerSys also provides aftermarket and customer support services to its customers in over 100 countries through its sales and manufacturing locations around the world. More information regarding EnerSys can be found at www.enersys.com.

Sustainability

Sustainability at EnerSys is about more than just the benefits and impacts of our products. Our commitment to sustainability encompasses many important environmental, social and governance issues. Sustainability is a fundamental part of how we manage our own operations. Minimizing our environmental footprint is a priority. Sustainability is our commitment to our employees, our customers and the communities we serve. Our products facilitate positive environmental, social and economic impacts around the world. Caution Concerning Forward-Looking Statements

This press release, and oral statements made regarding the subjects of this release, contains forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, or the Reform Act, which may include, but are not limited to, statements regarding EnerSys' earnings estimates, intention to return capital to stockholders, plans, objectives, expectations and intentions and other statements contained in this press release that are not historical facts, including statements identified by words such as "believe," "plan," "seek," "expect," "intend," "estimate," "anticipate," "will," and similar expressions. All statements addressing operating performance, events, or developments that EnerSys expects or anticipates will occur in the future, including statements relating to sales growth, continuing to pay cash dividends at the current rate, earnings or earnings per share growth, its intention to pay quarterly cash dividends and return capital to stockholders, execution of its stock repurchase program, and market share, as well as statements expressing optimism or pessimism about future operating results or benefits from either its cash dividend or its stock repurchase programs, are forward-looking statements within the meaning of the Reform Act. The forward-looking statements are based on management's current views and assumptions regarding future events and operating performance, and are inherently subject to significant business, economic, and competitive uncertainties and contingencies and changes in circumstances, many of which are beyond EnerSys' control. The statements in this press release are made as of the date of this press release, even if subsequently made available by EnerSys on its website or otherwise. EnerSys does not undertake any obligation to update or revise these statements to reflect events or circumstances occurring after the date of this press release.

Although EnerSys does not make forward-looking statements unless it believes it has a reasonable basis for doing so, EnerSys cannot guarantee their accuracy. For a list of other factors which could affect EnerSys' results, including earnings estimates, see EnerSys' filings with the Securities and Exchange Commission, including "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations," and "Forward-Looking Statements," set forth in EnerSys' Annual Report on Form 10-K for the fiscal year ended March 31, 2024. The foregoing factors, among others, could cause actual results to differ materially from those described in these forward-looking statements. No undue reliance should be placed on any forward-looking statements.
