ENERSYS  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**  
(In Thousands, Except Share and Per Share Data)

**NOTE 1: BASIS OF PRESENTATION**

The accompanying interim unaudited condensed consolidated financial statements of EnerSys (the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all the information and notes required for complete financial statements. In the opinion of management, the unaudited consolidated financial statements include all adjustments, consisting only of normal recurring accruals considered necessary for the fair presentation of the financial position, results of operations, and cash flows for the interim periods presented. The financial statements should be read in conjunction with the Consolidated Financial Statements and Notes thereto included in the Company’s Prospectus dated July 29, 2004, which forms part of the Company’s Registration Statement (SEC File No. 333-115553) on Form S-1, as amended (the “Company’s Prospectus”). The results of operations for the second quarter and for the six fiscal months ended October 3, 2004, are not necessarily indicative of the results to be expected for the full year.

The Company reports interim financial information for 13-week periods, except for the first quarter, which always begins on April 1, and the fourth quarter, which always ends on March 31. The four fiscal quarters in fiscal 2005 end on July 4, 2004, October 3, 2004, January 2, 2005, and March 31, 2005, respectively. The four fiscal quarters in fiscal 2004 ended on June 29, 2003, September 28, 2003, December 28, 2003, and March 31, 2004.

**NOTE 2: INITIAL PUBLIC OFFERING**

In August 2004, EnerSys completed an initial public offering (the “IPO”) and issued 12,500,000 shares of our common stock at a value of \$12.50 per share. The Company’s Registration Statement (SEC File No. 333-115553) for its IPO was declared effective by the Securities and Exchange Commission on July 26, 2004. The Company’s common stock commenced trading on the New York Stock Exchange on July 30, 2004 under the trading symbol “ENS.” At the completion of the offering, we had 45,945,559 shares of common stock outstanding, which included 11,014,421 shares that were outstanding prior to the IPO, 22,431,138 shares of common stock converted from preferred shares, and 12,500,000 new shares issued in the IPO. The net proceeds from the offering were \$139,232. The net proceeds and \$1,696 of other corporate funds were used to prepay the entire principal and accrued interest and prepayment penalty on our senior second lien term loan (\$123,015) and to prepay a portion (\$17,913) of our \$380,000 senior secured term loan B.

8

**NOTE 3: PROPOSED ACCOUNTING PRONOUNCEMENT**

In March 2004, the Financial Accounting Standards Board (“FASB”) issued an exposure document entitled *Share-Based Payment – an amendment of Statements No. 123 and 95* (Proposed Statement of Financial Accounting Standards). The Proposed Statement would eliminate the ability to account for share-based compensation transactions using Accounting Principles Board (“APB”) Opinion No. 25, *Accounting for Stock Issued to Employees* and generally require that such transactions be accounted for using a fair-value-based method. This accounting treatment, if approved, could result in significant compensation expense. The Proposed Statement, if adopted, would be effective for public entities for interim or annual periods beginning after June 15, 2005.

**NOTE 4: INVENTORIES**

Inventories, net consist of:

	October 3, 2004	March 31, 2004
Raw Materials	\$ 36,052	\$ 32,003
Work-in-Process	38,375	36,670
Finished Goods	65,916	63,039
	<u>\$ 140,343</u>	<u>\$ 131,712</u>

**NOTE 5: ACCOUNTING FOR DERIVATIVES**

The Company accounts for derivative instruments and hedging activities in accordance with SFAS 133 *Accounting for Derivative Instruments and Hedging Activities*, as amended by SFAS 138, *Accounting for Certain Derivative Instruments and Certain Hedging Activities* and SFAS 149, *Amendment of Statement 133 on Derivative Instruments and Hedging Activities* (collectively, "SFAS 133"). SFAS 133 establishes accounting and reporting standards for derivative instruments and hedging activities. SFAS 133 requires that all derivatives be recognized as either assets or liabilities at fair value. The Company does not enter into derivative contracts for speculative trading purposes. Derivatives are used to hedge the volatility arising from movements in a portion of the cost of lead purchases as well as to hedge certain interest rates. The changes in the fair value of these contracts are recorded in Accumulated Other Comprehensive Income until the related purchased lead or incurred interest rates are charged to earnings. At that time, the portion recorded in Accumulated Other Comprehensive Income is recognized in the Statement of Operations. The amount of Accumulated Other Comprehensive Income related to lead contracts at October 3, 2004, net of tax, was a credit of approximately \$1,702.

The following table describes the Company's interest rate swaps as of October 3, 2004, and March 31, 2004. These interest rate swaps are designated as cash flow hedges and, therefore, changes in their fair value, net of tax, are recorded in Accumulated Other Comprehensive Income. The amount of Accumulated Other Comprehensive Income related to interest rate swaps as of October 3, 2004, net of tax, was a debit of approximately \$(2,597).

9

Notional Amount	Origination Date	Maturity Date	Fixed Interest Rate Paid	Variable Interest Rate Received	Fair Value at October 3, 2004	Fair Value at March 31, 2004
\$ 60,000	02/22/01	02/22/08	5.16%	3-month LIBOR	\$ (3,579)	\$ (4,316)
68,000	05/05/04	05/05/08	3.67%(1)	3-month LIBOR	(767)	NA
<u>\$ 128,000</u>					<u>\$ (4,346)</u>	<u>\$ (4,316)</u>

(1) Fixed interest rate paid is 2.85% in year one, 3.15% in year two, 3.95% in year three and 4.68% in year four, which averages 3.67% for the four-year period.

**NOTE 6: INCOME TAXES**

The Company's income tax provisions for all periods consist of federal, state and foreign income taxes. The tax provisions for the second quarter and for the six fiscal months ended October 3, 2004 and September 28, 2003 were based on the estimated effective tax rates applicable for the full years ending March 31, 2005 and March 31, 2004, after giving effect to items specifically related to the interim periods. The second quarter and year-to-date fiscal 2005 effective income tax rates were 32% and 35%, respectively. The tax provision for the second quarter ended October 3, 2004 reflects a reduction of the estimated effective tax rates for the full year ending March 31, 2005. The second quarter and year-to-date fiscal 2004 effective tax rates were 38%.

**NOTE 7: WARRANTY**

The Company provides for estimated product warranty expenses when the related products are sold, with related liabilities primarily included within accrued expenses. Because warranty estimates are forecasts that are based on the best available information, primarily historical claims experience, claims costs may differ from amounts provided. An analysis of changes in the liability for product warranties is as follows:

	Six fiscal months ended	
	October 3, 2004	September 28, 2003
Balance at beginning of period	\$ 23,249	\$ 24,198
Current period provisions	7,878	6,913
Costs incurred	(7,018)	(6,455)
Balance at end of period	<u>\$ 24,109</u>	<u>\$ 24,656</u>

10

**NOTE 8: RESTRUCTURING ACTIVITY**

On March 22, 2002, the Company acquired the assets, stock and business of substantially all subsidiaries and affiliates comprising the Energy Storage Group ("ESG") of Invensys PLC. As of the acquisition date, the Company began to formulate an exit and restructuring plan for certain ESG facilities in North America and Europe. This restructuring activity is more fully disclosed in Note 3 to the Consolidated Financial Statements included in the Company's Prospectus dated July 29, 2004. A rollforward of this restructuring reserve is as follows:

	Six fiscal months ended	
	October 3, 2004	September 28, 2003
Balance at beginning of period	\$ 38,344	\$ 39,379
Costs incurred	(8,584)	(1,853)

Foreign currency impact and other	(514)	1,968
Balance at end of period	\$ 29,246	\$ 39,494

The costs incurred in the six months ended October 3, 2004 related primarily to approximately \$4,100 of restructuring activity in our United Kingdom facility and approximately \$3,300 of restructuring activity in our German facility. Since inception of these aggregate restructuring reserves, \$30,347 of costs have been incurred.

During the fiscal year ended March 31, 2002, the Company also decided to close and downsize certain existing manufacturing locations in North and South America, reduce product offerings, reduce sales and distribution facilities, and implement other consolidation initiatives. This restructuring activity is more fully described in Note 23 to the Consolidated Financial Statements included in the Company's Prospectus dated July 29, 2004. A rollforward of this restructuring reserve is as follows:

	Six fiscal months ended	
	October 3, 2004	September 28, 2003
Balance at beginning of period	\$ 12,063	\$ 11,722
Costs incurred	(8,581)	(750)
Balance at end of period	\$ 3,482	\$ 10,972

The costs incurred in the six months ended October 3, 2004 relate primarily to the settlement in the second quarter of a union matter related to the closing of a manufacturing location. Since the inception of these aggregate reserves, \$19,998 of costs have been incurred.

## NOTE 9: PENSIONS

The Company has adopted the disclosure requirements of SFAS No. 132 (revised 2003), *Employers' Disclosures about Pensions and Other Postretirement Benefits*, as is reflected in Note 14 of its Consolidated Financial Statements for the year ended March 31, 2004 included in the Company's Prospectus dated July 29, 2004. The following table presents the interim disclosure requirements of components of the Company's net periodic benefit cost related to its defined benefit pension plans.

	United States Plans		International Plan	
	Six fiscal months ended		Six fiscal months ended	
	October 3, 2004	September 28, 2003	October 3, 2004	September 28, 2003
Service cost	\$ 98	\$ 196	\$ 1,582	\$ 1,437
Interest cost	247	236	198	113
Actual return on plan assets	(276)	(222)	(277)	(139)
Amortization and deferral	69	107	—	(3)
Net periodic benefit cost	\$ 138	\$ 317	\$ 1,503	\$ 1,408

Significant assumptions used in the accounting for the pension benefit plans are as follows:

	United States Plans		International Plan	
	Six fiscal months ended		Six fiscal months ended	
	October 3, 2004	September 28, 2003	October 3, 2004	September 28, 2003
Discount rate	6.0%	6.0%	5.8%	5.8%
Expected return on plan assets	9.0%	9.0%	7.8%	7.8%
Rate of compensation increase	N/A	N/A	3.8%	3.8%

## NOTE 10: STOCK PLANS

The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provisions of SFAS No. 123, *Accounting for Stock-Based Compensation* as amended, to options granted under the stock option plan. For purposes of this pro forma disclosure, the estimated value of the options is amortized ratably to expense over the options' vesting periods. Because the estimated value is determined as of the date of grant, the actual value ultimately realized by the employee may be significantly different.

	Fiscal quarter ended		Six fiscal months ended	
	October 3, 2004	September 28, 2003	October 3, 2004	September 28, 2003
Net earnings available to common shareholders – as reported	\$ 6,384	\$ 2,942	\$ 7,256	\$ 3,099
Stock-based compensation expense included in net earnings, net of tax	11	—	136	—
Total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	(647)	(555)	(1,285)	(1,110)
Net earnings available to common shareholders – pro forma	\$ 5,748	\$ 2,387	\$ 6,107	\$ 1,989
Net earnings per common share – basic – as reported	\$ 0.15	\$ 0.27	\$ 0.27	\$ 0.28

Net earnings per common share – basic – pro forma	\$	0.13	\$	0.22	\$	0.23	\$	0.18
Net earnings per common share – diluted – as reported	\$	0.15	\$	0.26	\$	0.27	\$	0.28
Net earnings per common share – diluted –pro forma	\$	0.13	\$	0.21	\$	0.22	\$	0.18
Weighted average fair value of options granted during the period		N/A	\$	2.29	\$	2.00	\$	2.67

SFAS No. 123 requires the use of option-pricing models that were not developed for use in valuing employee stock options. The Black-Scholes option-pricing model was developed for use in estimating the fair value of short-lived exchange traded options that have no vesting restrictions and are fully transferable. In addition, option-pricing models require the input of highly subjective assumptions, including the option's expected life and the price volatility of the underlying stock. Because changes in the subjective input assumptions can materially affect the fair value estimate, in the opinion of management, the existing models do not necessarily provide a reliable single measure of the fair value of employee stock options.

13

#### NOTE 11: EARNINGS PER SHARE

Net earnings per share – basic is based on the weighted average number of shares of Common Stock outstanding. Net earnings per share – diluted reflects the potential dilution that could occur if stock options were exercised. See Note 2 for description of the effect of IPO on shares outstanding. Weighted average common shares and common shares – diluted were as follows:

	Fiscal quarter ended		Six fiscal months ended	
	October 3, 2004	September 28, 2003	October 3, 2004	September 28, 2003
Weighted average shares of common stock outstanding	42,648,856	11,014,421	26,831,638	11,014,421
Assumed exercise of stock options, net of shares assumed reacquired	562,907	143,316	532,677	143,101
Weighted average common shares - diluted	43,211,763	11,157,737	27,364,315	11,157,522

At October 3, 2004, there were 3,077,538 outstanding employee stock options that are out-of-the money and therefore were excluded from the calculation of the dilutive effect of employee stock options. All share data reflects the twenty-eight and one-half to one stock split of the Company's common stock on July 9, 2004.

#### NOTE 12: COMMITMENTS AND CONTINGENCIES

As more fully disclosed in Note 18 of Notes to the Consolidated Financial Statements for the year ended March 31, 2004, included in the Company's Prospectus dated July 29, 2004, the Company is involved in litigation incidental to conduct of its business, the results of which, in the opinion of management, are not likely to be material to the Company's financial condition, results of operations, or cash flows.

#### NOTE 13: BUSINESS SEGMENTS

The Company has the following two reportable business segments:

The *Reserve Power* segment manufactures batteries used to provide backup power for the continuous operation of critical systems during power disruptions. They include telecommunications and computer systems, such as process control and database systems. This segment also includes aerospace and defense applications including battery power systems for combat vehicles, commercial and military aircraft and submarines.

14

The *Motive Power* segment manufactures batteries used to power mobile manufacturing, warehousing and other ground handling equipment, primarily electric industrial forklift trucks.

The following table provides selected financial data for the Company's reportable business segments:

	Reserve Power	Motive Power	Other (1)	Consolidated
<b>Fiscal quarter ended October 3, 2004:</b>				
Net Sales	\$ 129,251	\$ 132,062	\$ —	\$ 261,313
Operating earnings (loss)	\$ 9,892	\$ 10,072	\$ (73)	\$ 19,891
<b>Fiscal quarter ended September 28, 2003:</b>				
Net Sales	\$ 109,375	\$ 112,764	\$ —	\$ 222,139
Operating earnings (loss)	\$ 9,560	\$ 7,933	\$ (73)	\$ 17,420
<b>Six fiscal months ended October 3, 2004:</b>				
Net Sales	\$ 254,051	\$ 270,523	\$ —	\$ 524,574
Operating earnings (loss)	\$ 21,177	\$ 21,350	\$ (121)	\$ 42,406
<b>Six fiscal months ended September 28, 2003:</b>				
Net Sales	\$ 216,735	\$ 223,669	\$ —	\$ 440,404
Operating earnings (loss)	\$ 13,713	\$ 16,315	\$ (119)	\$ 29,909

**NOTE 14: SPECIAL CHARGE**

In August 2004, the Company used the net proceeds from its initial public offering and \$1,696 of other corporate funds to prepay the entire principal and accrued interest and prepayment penalty on our senior second lien term loan (\$123,015) and to prepay a portion (\$17,913) of our \$380,000 senior secured term loan B. In connection with these prepayments, the Company incurred a non-operating special charge of \$6,022 for the write-off of a portion of unamortized deferred finance costs and the prepayment penalty on the senior second lien term loan.

---

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**FORWARD-LOOKING STATEMENTS**

The Private Securities Reform Act of 1995 (the "Reform Act") provides a safe harbor for forward-looking statements made by or on behalf of EnerSys. EnerSys and its representatives may, from time to time, make written or verbal forward-looking statements, including statements contained in the Company's filings with the Securities and Exchange Commission and its reports to stockholders. Generally, the inclusion of the words "believe," "expect," "intend," "estimate," "anticipate," "will," and similar expressions identify statements that constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 and that are intended to come within the safe harbor protection provided by those sections. All statements addressing operating performance, events, or developments that EnerSys expects or anticipates will occur in the future, including statements relating to sales growth, earnings or earnings per share growth, and market share, as well as statements expressing optimism or pessimism about future operating results, are forward-looking statements within the meaning of the Reform Act. The forward-looking statements are and will be based on management's then-current views and assumptions regarding future events and operating performance, and are applicable only as of the dates of such statements. EnerSys undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

Forward-looking statements involve risks, uncertainties and assumptions. Although we do not make forward-looking statements unless we believe we have a reasonable basis for doing so, we cannot guarantee their accuracy. Actual results may differ materially from those expressed in these forward-looking statements due to a number of uncertainties and risks, including the risks described in the Company's Prospectus dated July 29, 2004, which forms part of the Company's Registration Statement (SEC File No. 333-115553) on Form S-1, as amended (the "Company's Prospectus") and other unforeseen risks. You should not put undue reliance on any forward-looking statements. These statements speak only as of the date of this Quarterly Report on Form 10-Q, and we undertake no obligation to update or revise these statements to reflect events or circumstances occurring after the date of this Quarterly Report on Form 10-Q.

Actual results may differ materially from those contemplated by the forward-looking statements for a number of reasons, including the following factors:

- general cyclical patterns of the industries in which our customers operate;
- the extent to which we can control our fixed and variable costs;
- the raw material in our products may experience significant fluctuations in market price;
- certain raw materials constitute hazardous materials that may give rise to costly environmental and safety claims;
- risks involved in foreign operations such as disruption of markets, changes in import and export laws, currency restrictions and currency exchange rate fluctuations;

- 
- our ability to raise our selling prices to our customers when our product costs increase;
  - the extent to which we are able to efficiently utilize our global manufacturing facilities and optimize their capacity;
  - general economic conditions in the markets in which we operate;
  - competitiveness of the battery markets in the Americas, Europe and Asia;
  - our timely development of competitive new products and product enhancements in a changing environment and the acceptance of such products and product enhancements by customers;
  - our ability to adequately protect our proprietary intellectual property, technology and brand names;
  - unanticipated litigation proceedings to which we might be subject, the results of which could have a material adverse effect on us and our business;
  - changes in our market share in the business segments and regions where we operate;
  - our ability to implement our cost reduction initiatives successfully and improve our profitability;
  - unanticipated quality problems associated with our products;
  - our ability to implement business strategies, including our acquisition strategy, and restructuring plans;
  - our acquisition strategy may not be successful in locating advantageous targets;
  - our ability to successfully integrate any assets, liabilities, customers, systems and management personnel we acquire into our operations and our ability to realize related revenue synergies and cost savings within expected time frames;
  - implementation of a new enterprise resource planning system could adversely affect our operations;
  - our ability to comply with the provisions of Section 404(a) of the Sarbanes-Oxley Act of 2002;
  - our debt and debt service requirements which may restrict our operational and financial flexibility, as well as imposing unfavorable interest and financing costs;
  - adverse changes in our short- and long-term debt levels and adverse changes in the floating interest rates under our credit facilities;
  - our exposure to fluctuations in interest rates on our variable-rate debt;
  - our inability to attract and retain qualified personnel;
  - credit risk associated with our customers, including risk of insolvency and bankruptcy; and
  - terrorist acts or acts of war, whether in the United States or abroad, could cause damage or disruption to our operations, our suppliers, channels to market or customers, or could cause costs to increase, or create political or economic instability, any of which could have a material adverse effect on

## NON-GAAP MEASURES

This report contains financial information determined by methods other than in accordance with U.S. Generally Accepted Accounting Principles (“GAAP”). EnerSys’ management uses non-GAAP measures in their analysis of the Company’s performance. These measures, as used by EnerSys, adjust net earnings determined in accordance with GAAP to exclude effects of special items, including significant gains or losses that are unusual in nature or are associated with our IPO and certain non-cash charges. Management believes presentations of financial measures excluding the impact of these items provide useful supplemental information in evaluating the operating results of our business. These disclosures should not be viewed as a substitute for net earnings determined in accordance with GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies.

## OVERVIEW

In August 2004, EnerSys completed an initial public offering (the “IPO”) and issued 12,500,000 shares of our common stock at a value of \$12.50 per share. The Company’s Registration Statement (SEC File No. 333-115553) for its IPO was declared effective by the Securities and Exchange Commission on July 26, 2004. The Company’s common stock commenced trading on the New York Stock Exchange on July 30, 2004 under the trading symbol “ENS.” At the completion of the offering, we had 45,945,559 shares of common stock outstanding, which included 11,014,421 shares that were outstanding prior to the IPO, 22,431,138 shares of common stock converted from preferred shares, and 12,500,000 new shares issued in the IPO. The net proceeds from the offering were approximately \$139.2 million. The net proceeds and \$1.7 million of other corporate funds were used to prepay the entire principal and accrued interest and prepayment penalty on our senior second lien term loan (\$123.0 million) and to prepay a portion (\$17.9 million) of our \$380.0 million senior secured term loan B.

We manufacture, market and distribute reserve power and motive power lead-acid industrial batteries and related products such as chargers, power equipment and battery accessories. We also provide related after-market and customer-support services for lead-acid industrial batteries. We market and sell our products globally in more than 100 countries to over 10,000 customers through a network of distributors, independent representatives and an internal sales force.

We have two business segments, reserve power and motive power:

- **Reserve power batteries** are used to provide backup power for the continuous operation of critical telecommunications and uninterruptible power systems during power disruptions. They include telecommunications and computer systems, such as process control and database systems. This segment also includes aerospace and defense applications including battery power systems for combat vehicles, commercial and military aircraft and submarines.
- **Motive power batteries** are used to power mobile manufacturing, warehousing and other ground handling equipment, primarily electric industrial forklift trucks.

We evaluate business segment performance based primarily upon operating earnings. We also evaluate each business segment’s cash flow and financial position performance based upon primary working capital. Although we monitor the three elements of primary working capital (receivables, inventory and accounts payable), our primary focus is on the total amount. Primary working capital ratio is a calculation of the sum of trade accounts receivable, plus inventories, minus trade accounts payable divided by the trailing three-month net sales (annualized). Primary working capital was \$272.8 million (yielding a primary working capital percentage ratio of 26.1%) at October 3, 2004, and \$246.4 million (yielding a primary working capital percentage ratio of 22.4%) at March 31, 2004. We closely manage our level of working capital due to the significant impact it has on cash flow and, as a result, our level of debt. The increase in the ratio during fiscal 2005 was primarily due to slower collections of receivables in Europe and higher levels of inventory to support shifts in the production locations of certain products. Although collections in Europe improved in the quarter, both of these areas remain a focus for improvement.

On a consolidated basis, we monitor daily short-term and long-term debt levels, as well as the corresponding leverage ratios (primarily using debt to EBITDA). EBITDA is earnings before interest, income taxes, depreciation and amortization.

We operate and manage our business in three primary geographic regions of the world - the Americas, Europe and Asia. Our business is highly decentralized with 20 manufacturing locations throughout the world. Over half our net sales for the second quarter and for the year-to-date of fiscal 2005 and 2004 were generated outside of the Americas.

We place strong emphasis on reducing our costs in order to maintain and improve our operating earnings and corresponding margins.

## RESULTS OF OPERATIONS

### NET SALES

By segment

	Fiscal quarter ended October 3, 2004		Fiscal quarter ended September 28, 2003		Increase	
	In Millions	Percentage of Total Net Sales	In Millions	Percentage of Total Net Sales	In Millions	Percentage
Reserve power	\$ 129.3	49.5%	\$ 109.4	49.2%	\$ 19.9	18.2%

	Six fiscal months ended October 3, 2004		Six fiscal months ended September 28, 2003		Increase	
	In Millions	Percentage of Total Net Sales	In Millions	Percentage of Total Net Sales	In Millions	Percentage
Reserve power	\$ 254.1	48.4%	\$ 216.7	49.2%	\$ 37.3	17.2%
Motive power	270.5	51.6	223.7	50.8	46.9	21.0
Total	\$ 524.6	100.0%	\$ 440.4	100.0%	\$ 84.2	19.1%

## By region

	Fiscal quarter ended October 3, 2004		Fiscal quarter ended September 28, 2003		Increase	
	In Millions	Percentage of Total Net Sales	In Millions	Percentage of Total Net Sales	In Millions	Percentage
America	\$ 109.7	42.0%	\$ 100.1	45.1%	\$ 9.6	9.6%
Europe (1)	135.0	51.6	110.3	49.6	24.7	22.4
Asia	16.6	6.4	11.7	5.3	4.9	41.9
Total	\$ 261.3	100.0%	\$ 222.1	100.0%	\$ 39.2	17.6%

	Six fiscal months ended October 3, 2004		Six fiscal months ended September 28, 2003		Increase	
	In Millions	Percentage of Total Net Sales	In Millions	Percentage of Total Net Sales	In Millions	Percentage
America	\$ 222.4	42.4%	\$ 196.8	44.7%	\$ 25.6	13.0%
Europe (1)	267.9	51.1	221.4	50.3	46.5	21.0
Asia	34.3	6.5	22.2	5.0	12.1	54.5
Total	\$ 524.6	100.0%	\$ 440.4	100.0%	\$ 84.2	19.1%

(1) Includes Europe, Middle East and Africa

Net sales, excluding the effect of foreign currency translation, increased 12.8% or \$28.5 million in the second quarter and 14.6% or \$64.3 million year-to-date of fiscal 2005 over the comparable periods of fiscal 2004. This increase is attributed to customer demand for our products in all regions, improved macroeconomic factors worldwide, and the inclusion of three additional operating days in the first quarter of fiscal 2005.

## GROSS PROFIT

	Fiscal quarter ended October 3, 2004		Fiscal quarter ended September 28, 2003		Increase	
	In Millions	Percentage of Total Net Sales	In Millions	Percentage of Total Net Sales	In Millions	Percentage
	\$ 61.1	23.4%	\$ 57.3	25.8%	\$ 3.8	6.6%

  

	Six fiscal months ended October 3, 2004		Six fiscal months ended September 28, 2003		Increase	
	In Millions	Percentage of Total Net Sales	In Millions	Percentage of Total Net Sales	In Millions	Percentage
	\$ 127.8	24.4%	\$ 109.8	24.9%	\$ 18.0	16.4%

Gross profit, excluding the effect of foreign currency translation, increased 2.7% or \$1.6 million in the second quarter and 12.2% or \$13.4 million year-to-date of fiscal 2005 over the comparable periods of fiscal 2004. The 240 basis point decrease in the second quarter and 50 basis point decrease year-to-date in gross profit as a percent of net sales over comparable periods in the prior year was due primarily to increased raw material costs, partially offset by increased fixed cost absorption due to increased production volume and our cost savings programs. Cost reduction programs remain an important element of our business strategy to continue to improve efficiencies, optimize our manufacturing capacity and further increase our profitability.

## OPERATING EXPENSES

	Fiscal quarter ended October 3, 2004		Fiscal quarter ended September 28, 2003		Increase	
	In Millions	Percentage of Total Net Sales	In Millions	Percentage of Total Net Sales	In Millions	Percentage

	\$ 41.2	15.8%	\$ 39.8	17.9%	\$ 1.4	3.5%
	Six fiscal months ended October 3, 2004		Six fiscal months ended September 28, 2003		Increase	
	In Millions	Percentage of Total Net Sales	In Millions	Percentage of Total Net Sales	In Millions	Percentage
	\$ 85.4	16.3%	\$ 79.9	18.1%	\$ 5.5	6.9%

21

Operating expenses, excluding the effect of foreign currency translation, decreased 0.7% or \$0.3 million in the second quarter and increased 3.1% or \$2.4 million year-to-date of fiscal 2005 over the comparable periods of fiscal 2004. Operating expenses as a percentage of net sales decreased in both the second quarter and year-to-date in fiscal 2005 in comparison with the same periods in fiscal 2004. This decrease of 210 basis points and 180 basis points respectively, is consistent with our ongoing cost reduction initiatives and the favorable impact from leveraging the fixed cost components of our operating expenses, as net sales have increased over the comparable prior year periods. Selling expenses, our main component of operating expenses, were 68.3% and 67.0% of total operating expenses in the second quarter and year-to-date of fiscal 2005 compared to 66.4% and 66.7% of total operating expenses in the second quarter and year-to-date of fiscal 2004.

## OPERATING EARNINGS

	Fiscal quarter ended October 3, 2004		Fiscal quarter ended September 28, 2003		Increase	
	In Millions	Percentage of Net Sales	In Millions	Percentage of Net Sales	In Millions	Percentage
Reserve power	\$ 9.9	7.7%	\$ 9.6	8.8%	\$ 0.3	3.1%
Motive power	10.0	7.6	7.9	7.0	2.1	26.6
Other	—	—	(0.1)	—	0.1	—
Total	\$ 19.9	7.6%	\$ 17.4	7.8%	\$ 2.5	14.4%

	Six fiscal months ended October 3, 2004		Six fiscal months ended September 28, 2003		Increase	
	In Millions	Percentage of Net Sales	In Millions	Percentage of Net Sales	In Millions	Percentage
Reserve power	\$ 21.2	8.3%	\$ 13.7	6.3%	\$ 7.5	54.7%
Motive power	21.3	7.9	16.3	7.3	5.0	30.7
Other	(0.1)	—	(0.1)	—	—	—
Total	\$ 42.4	8.1%	\$ 29.9	6.8%	\$ 12.5	41.8%

Operating earnings, excluding the effect of foreign currency translation, increased 13.1% or \$2.3 million in the second quarter and 39.5% or \$11.8 million year-to-date in fiscal 2005 over the comparable periods of fiscal 2004. The 20 basis point decline in operating margin in the second quarter of fiscal 2005 in comparison with the comparable period of 2004 is primarily attributed to higher raw material costs. The 130 basis point increase in operating margin year-to-date in fiscal 2005 over the comparable period in fiscal 2004 is primarily attributed to the net sales

22

increase and cost savings initiatives, partially offset by higher raw material costs (particularly in the second quarter) and increased operating expenses.

## INTEREST EXPENSE

Interest expense of \$5.9 million in the second quarter and \$13.3 million year-to-date of fiscal 2005 (net of interest income of \$0.03 and \$0.07 million) was \$0.7 and \$3.1 million higher than the \$5.1 million in the second quarter and \$10.2 million year-to-date of fiscal 2004. The increase in interest expense is primarily attributable to higher debt levels in the second quarter and year-to-date of fiscal 2005. Our total debt was \$382.2 million at October 3, 2004 as compared to \$257.0 million at September 28, 2003. This increase in debt was primarily due to the additional debt incurred in connection with the recapitalization completed in March 2004. On August 20, 2004, the Company completed a refinancing of its outstanding term loan B of \$361.1 million with the issuance of a new term loan B in the amount of 365.0 million. This was effected through an amendment of our senior secured credit agreement which added the ability to enter into the new term loan B with a credit spread on variable interest rates of one-half of one percent lower than that on the existing term loan B. All other terms and conditions of the agreement remain unchanged. Our average interest rate on borrowings in the second quarter of fiscal 2005 was 4.68% compared to 4.85% in the comparable period in fiscal 2004. Our average interest rate on borrowings year-to-date was 4.79% in fiscal 2005 compared to 4.83% in 2004. See Note 9 of Notes to Consolidated Financial Statements for the year ended March 31, 2004, included in the Company's Prospectus, for a detailed description of our debt.

## SPECIAL CHARGES

During the second quarter of fiscal 2005, the Company incurred a non-operating special charge of \$6.0 million for the write-off of a portion of unamortized deferred finance costs and a prepayment penalty on the repayment of its senior secured lien term loan in connection with the IPO.

## OTHER (INCOME) EXPENSE, NET

Other income of \$1.4 million was recorded in the second quarter of fiscal 2005 compared to other income of \$1.7 million in the comparable period of fiscal 2004. Non-operating foreign currency transaction net gains (primarily from the strengthening of the euro against the U.S. dollar) on certain debt transactions and license fee revenue were the primary causes of the income in the second quarter of both fiscal 2005 and 2004.

Other income of \$0.7 million was recorded year-to-date in fiscal 2005 compared to other income of \$3.7 million in the comparable period of fiscal 2004. Year-to-date fiscal 2005 other income consisted primarily of the second quarter foreign currency net gains, partially offset by a fixed asset write-off recorded in the first quarter of 2005. Year-to-date fiscal 2004 other income consisted primarily of foreign currency net gains on certain debt transactions.

23

## EARNINGS BEFORE INCOME TAXES

Second quarter and year-to-date fiscal 2005 earnings before income taxes of \$9.4 and \$23.8 million (3.6% and 4.5% of net sales), were lower for the comparable quarter but exceeded the comparable year-to-date period in fiscal 2004 by \$(4.6) and \$0.4 million or (32.9)% and 1.7%, respectively.

Excluding the effect of foreign currency translation, earnings before income taxes decreased \$4.8 and \$0.2 million or 34.0% and 0.8% in the second quarter and year-to-date fiscal 2005 compared with the comparable period in fiscal 2004. This decrease is primarily attributed to the \$6.0 million special charge recorded in the second quarter of fiscal 2005, higher interest expense and lower non-operating foreign currency transaction gains, partially offset by a significant improvement in operating margin.

## INCOME TAX EXPENSE

The second quarter and year-to-date fiscal 2005 effective income tax rates were 32% and 35%, respectively compared to 38% in the comparable periods in fiscal 2004. A year-to-date adjustment was made in the second quarter of fiscal 2005 to bring the year-to-date effective tax rate in line with current estimates for the entire year.

## NET EARNINGS

As a result of the above, second quarter fiscal 2005 net earnings of \$6.4 million (2.4% of net sales) were below the second quarter fiscal 2004 net earnings of \$8.7 million (3.9% of net sales) by \$2.3 million or 26.4%. Year-to-date fiscal 2005 net earnings of \$15.4 million (2.9% of net sales) exceeded year-to-date fiscal 2004 net earnings of \$14.5 million (3.3% of net sales) by \$0.9 million or 6.5%.

Net earnings per common share in the second quarter of fiscal 2005 basic and diluted decreased to \$0.15 and \$0.15 from \$0.27 and \$0.26 in the second fiscal quarter of 2004, respectively. Net earnings per common share basic and diluted for year-to-date fiscal 2005 decreased to \$0.27 and \$0.27 from \$0.28 and \$0.28 year-to-date fiscal 2004, respectively.

Giving effect to the IPO as if it occurred as of the beginning of the pro forma periods presented and eliminating the effect of the special charge (net of tax), pro forma net earnings per common share and weighted-average share amounts were:

24

Pro forma net earnings per common share:

	Fiscal quarter ended	
	October 3, 2004	September 28, 2003
Basic	\$ 0.23	\$ 0.19
Diluted	\$ 0.23	\$ 0.19

  

	For the six fiscal months ended	
	October 3, 2004	September 28, 2003
Basic	\$ 0.46	\$ 0.31
Diluted	\$ 0.46	\$ 0.31

Pro forma weighted-average shares of common stock outstanding:

Basic	45,945,559
Diluted	46,448,006

### Fiscal 2005 pro forma adjustments

Pro forma net earnings per share for the second quarter fiscal 2005 excludes \$0.5 million of interest expense (net of tax), which results from the assumed prepayment of debt from the proceeds of the IPO as if it occurred on April 1, 2004. It also excludes a \$3.9 million special charge (net of tax).

Pro forma net earnings per share year-to-date fiscal 2005 excludes \$1.9 million of interest expense (net of tax), which results from the assumed prepayment of debt from the proceeds of the IPO as if it occurred on April 1, 2004; excludes a \$3.9 million special charge (net of tax); and, excludes the first quarter fiscal 2005 series A convertible stock dividend of \$8.2 million.

### Fiscal 2004 pro forma adjustments

Pro forma net earnings per share for the second quarter of fiscal 2005 includes \$0.1 million of additional interest expense (net of tax), which results from the net additional debt (adjusted for the assumed prepayment of debt with the proceeds of the IPO and the assumed increase of debt associated with the March 2004 recapitalization) as if it occurred as of April 1, 2003. It also excludes the second quarter fiscal 2004 series A convertible stock dividend of \$5.7 million.

Pro forma net earnings per share for year-to-date fiscal 2004 includes \$0.3 million of additional interest expense (net of tax), which results from the net additional debt (adjusted for the assumed prepayment of debt with the proceeds of the IPO and the assumed increase of debt associated

with the March 2004 recapitalization) as if it occurred as of April 1, 2003. It also excludes the year-to-date fiscal 2004 series A convertible dividend of \$11.4 million.

Pro forma weighted-average shares of common stock outstanding for purposes of the pro forma basic net earnings per share calculation for all periods presented consists of 11,014,421 shares of common stock outstanding prior to the IPO, 22,431,138 shares of common stock converted from preferred shares, (outstanding as of the date of the IPO) and 12,500,000 shares of our common stock issued in the IPO.

## OUTLOOK

For the third quarter of our fiscal year 2005, we expect to generate net earnings per share of between \$0.14 and \$0.18 for both the basic and diluted calculations. Additionally for the full 2005 fiscal year, we expect to generate pro forma net earnings per share of between \$0.85 to \$0.90 for both basic and diluted calculations, compared to pro forma net earnings per share of \$0.79 basic and \$0.78 diluted for fiscal 2004. The weighted average shares outstanding used to determine earnings per share are expected to be 45,954,228 for basic and 46,581,025 for diluted.

These earnings estimates are forward-looking statements which involve risks, uncertainties and assumptions. Our actual results may differ materially from the earnings estimates set forth above for a number of reasons. For a list of the factors which could affect our earnings estimates see "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations" above, including "Forward-Looking Statements."

## LIQUIDITY AND CAPITAL RESOURCES

Operating activities provided cash of \$1.1 million for the six months ended October 3, 2004, as compared to \$22.9 million of cash provided in the comparable period in fiscal 2004. This change was primarily due to anticipated restructuring payments of \$17.1 million and an increase in accounts receivable. The increases in accounts receivable year-to-date fiscal 2005 were driven by increased net sales and increased levels as a percent of sales. See the "Overview" above for a discussion of primary working capital.

Investing activities used cash of \$12.3 million for the six months ended October 3, 2004, as compared to cash used of \$10.2 million in the comparable period in fiscal 2004. Capital expenditures were \$4.2 million higher year-to-date fiscal 2005, but this was offset by \$3.5 million of cash provided by the sale of an idle manufacturing facility in the U.S. The higher level of capital spending was primarily related to cost savings programs in Europe and the U.S.

Financing activities provided cash of \$9.5 million year-to-date fiscal 2005, as compared to cash provided of \$1.4 million in the comparable period of fiscal 2004, primarily due to IPO net proceeds of \$139.2 million, and an increase in short-term debt of \$3.5 million, offset by a decrease of \$134.1 million in long-term debt and payment of financing fees on new debt of \$0.5 million.

All obligations under our credit agreements are secured by, among other things, substantially all of our U.S. assets. Our credit agreements contain various covenants which, absent prepayment in full of the indebtedness and other obligations, or the receipt of waivers, limit our ability to conduct certain specified business transactions, buy or sell assets out of the ordinary course of business, engage in sale and leaseback transactions, pay dividends and take certain other actions.

We currently are in compliance with all covenants and conditions under our credit agreements. Since we believe that we will continue to comply with these covenants and conditions, we believe that we have adequate availability of funds to meet our cash requirements. See Note 9 of Notes to Consolidated Financial Statements for the year ended March 31, 2004, included in the Company's Prospectus dated July 29, 2004, for a detailed description of debt.

See discussion of initial public offering in the "Overview" above.

## ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

EnerSys' cash flows and earnings are subject to fluctuations resulting from changes in interest rates, foreign currency exchange rates and raw material costs. We manage our exposure to these market risks through internally established policies and procedures and, when deemed appropriate, through the use of derivative financial instruments. EnerSys' policy does not allow speculation in derivative instruments for profit or execution of derivative instrument contracts for which there are no underlying exposures. We do not use financial instruments for trading purposes and are not a party to any leveraged derivatives. We monitor our underlying market risk exposures on an ongoing basis and believe that we can modify or adapt our hedging strategies as needed.

We are exposed to changes in variable interest rates on borrowings under our credit agreements. On a selective basis, from time to time, we enter into interest rate swap agreements to reduce the negative impact that increases in interest rates could have on our outstanding variable debt.

In February 2001, we entered into interest rate swap agreements to fix the interest rate on \$60.0 million of our floating rate debt through February 22, 2006, at 5.59% per year. In April and May 2004, we amended these agreements to extend the maturity to February 22, 2008, and reduce the fixed rate to 5.16% per year beginning May 24, 2004.

In April 2004, we entered into interest rate swap agreements to fix interest rates on an additional \$60.0 million of floating rate debt through May 5, 2008. The fixed rates per year began May 5, 2004, and are 2.85% during the first year, 3.15% the second year, 3.95% the third year and 4.75% in the fourth year, which

averages 3.68% for the four-year period.

In August 2004, we entered into an interest rate swap agreement to fix interest rates on an additional \$8.0 million of floating rate debt through May 5, 2008. The fixed rates per year began

27

November 5, 2004, and are 2.85% during the first year, 3.15% the second year, 3.95% the third year and 4.20% in the fourth year, which averages 3.64% for the three and one-half year period.

We are also exposed to foreign currency exchange risks. The geographic diversity of our sales and costs help mitigate the risk of the volatility of currency in any particular region of the world. As of October 3, 2004 and September 28, 2003, we had not entered into any foreign currency forward contracts.

We have a significant risk in our exposure to certain raw materials, which we estimate were approximately half of total cost of goods sold for the first six months of fiscal 2005 and 2004. Our largest single raw material cost is lead, for which the cost remains volatile. To ensure a steady supply of lead and to mitigate against large increases in cost, we enter into contracts with our suppliers for the purchase of lead. Each contract is for a period not extending beyond one year. Under these contracts, we were committed to the purchase of the following amounts of lead:

Date	\$'s (in millions)	# Pounds (in millions)	Average Cost/Pound
October 3, 2004	\$ 31.6	90.4	\$ 0.35
March 31, 2004	11.9	38.7	0.31

#### ITEM 4. DISCLOSURE CONTROLS AND PROCEDURES

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures pursuant to SEC rule 13a-15 as of October 3, 2004. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of October 3, 2004. There has been no change in the Company's internal control over financial reporting that occurred during the quarter ended October 3, 2004 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

#### PART II – OTHER INFORMATION

##### Item 1. Legal Proceedings

The Company is involved in litigation incidental to the conduct of its business, the results of which, in the opinion of management, are not likely to be material to the Company's financial condition, results of operations, or cash flows.

When we acquired Yuasa's North and South American industrial battery business in 2000, we acquired the worldwide right to use the Exide trademark on industrial batteries. Yuasa had

28

acquired exclusive perpetual, worldwide and transferable license to use the Exide name on industrial batteries in 1991 when it bought Exide Technologies' industrial battery business.

In 2002, Exide Technologies filed for protection under Chapter 11 of the U.S. Bankruptcy Code. During the course of its Chapter 11 proceedings, Exide Technologies sought to reject certain agreements related to the 1991 sale of Exide Technologies' industrial battery business to Yuasa, including the trademark license referred to above. We opposed Exide Technologies' attempt to reject these agreements. If the court were to find in favor of Exide Technologies, our license to use the Exide name could be terminated. If the license were so terminated, we believe that the court might delay the effective date of the termination for some reasonable period.

Our Exide-branded batteries represented approximately 12% of our net sales for fiscal 2004. We introduced testimony in the court proceedings from an expert witness who estimated that we would suffer damages of approximately \$60 million over a seven-year period from profit on lost sales and incremental re-branding expense in the event that the license were terminated. This expert's assessment of our damages assumed, contrary to our current belief, that the court would not delay the effective date of the termination.

We believe that we should prevail but, as with any litigation, the outcome is uncertain. If we do not ultimately prevail, we believe that, if the court were to provide us with a reasonable time period to continue to use the name while we re-brand our products in order to mitigate potential sales loss, the termination of the license should not have a material adverse effect on our financial condition or operating results.

##### Item 2. Changes in Securities, Use of Proceeds and Issuers Purchases of Equity Securities

We registered 12,500,000 shares of our common stock with our initial public offering under the Securities Act. The Securities and Exchange Commission declared our Registration Statement on Form S-1, as amended (Reg. No. 333-115553), for such initial public offering effective on July 26, 2004. The offering commenced as of such date, and did not terminate before any securities were sold. The offering was completed on August 4, 2004 and all 12,500,000 shares of common stock offered in the IPO were sold at the price of \$12.50 per share. The underwriters of the offering were Morgan Stanley, Lehman Brothers, Banc of America Securities LLC, and William Blair & Company.

The aggregate proceeds of the offering were \$156.2 million. The net offering proceeds to us after deducting total expenses were approximately \$139.2 million. We incurred total expenses in connection with the offering of approximately \$17.0 million, which consisted of: \$10.9 million in underwriters' discounts, fees and commissions; \$6.0 million in legal, accounting and printing fees; and \$0.1 million in miscellaneous expenses.

lien term loan (\$123.0 million) and to prepay a portion (\$17.9 million) of our \$380.0 million senior secured term loan B. In connection with these prepayments, the Company incurred non-operating special charges of \$6.0 million for the write-off of a portion of deferred finance costs and the prepayment penalty on the senior second lien term loan.

**Item 3. Defaults Upon Senior Securities**

None

**Item 4. Submission of Matters to a Vote of Security Holders**

In July 2004, our stockholders authorized by unanimous written consent the following actions in connection with our initial public offering:

- the adoption of our Fifth Restated Certificate of Incorporation to become effective in full upon the completion of our initial public offering;
- the approval of accelerated stock option vesting under the 2000 Management Equity Plan;
- the adoption of the 2004 Equity Incentive Plan;
- the adoption of the 2004 Employee Stock Purchase Plan.

All such actions were effected pursuant to written consent of our stockholders in compliance with Section 228 of the Delaware General Corporation Law.

In July 2004, our stockholders also authorized a twenty-eight and one-half to one stock split of the Company's common stock outstanding prior to the initial public offering. The action was effected pursuant to a unanimous written consent of our stockholders in compliance with Section 228 of the Delaware General Corporation Law.

**Item 5. Other Information**

None

**Item 6. Exhibits and Reports on Form 8-K**

(a) Exhibits

- 3.1 \*Fifth Restated Certificate of Incorporation
- 3.2 \*Bylaws
- 4.1 \*Form of Common Stock Certificate
- 4.2 \*2004 Securityholder Agreement

10.28 \*\*First Amendment as of August 6, 2004, to the Credit Agreement dated as of March 17, 2004

31.1 Certification of the Chief Executive Officer pursuant to Section 302(a) of the Sarbanes-Oxley Act of 2002 (filed herewith).

31.2 Certification of the Chief Financial Officer pursuant to Section 302(a) of the Sarbanes-Oxley Act of 2002 (filed herewith).

32.1 Certification of the Chief Executive Officer and Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

(b) Reports on Form 8-K

On September 9, 2004, the Company filed a current report on Form 8-K dated September 9, 2004, reporting information under Items 2.02, 7.01, and 9.01.

\* - Incorporated by reference to exhibits (with same exhibit number) to EnerSys Registration Statement on Form S-1 (File No. 333-115553) declared effective by the Securities and Exchange Commission on July 26, 2004.

\*\* - Incorporated by reference to exhibits (with same exhibit number) to EnerSys Form 10-Q (File No.: 001-32253) filed with the Securities and Exchange Commission on September 9, 2004.

## SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

ENERSYS (Registrant)

By /s/ Michael T. Philion  
Michael T. Philion  
Executive Vice President-Finance and Chief  
Financial Officer  
(Authorized Officer and Principal Financial  
Officer)

**CERTIFICATION OF THE CHIEF EXECUTIVE OFFICER  
PURSUANT TO SECTION 302 (a) OF THE SARBANES-OXLEY ACT OF 2002**

I, John D. Craig, Chief Executive Officer of EnerSys, certify that:

1. I have reviewed this quarterly report on Form 10-Q of EnerSys;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements and other financial information included in this report fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. < font size="1" face="Times New Roman" style="font-size:3.0pt;"> The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
  - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (c) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting;
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

- 
- (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
