**ENERSYS REPORTS THIRD QUARTER FISCAL 2024 RESULTS  
DELIVERS GROSS MARGIN OF 28.9%, UP 570 BASIS POINTS FROM PRIOR YEAR AND EPS OF \$1.86, UP 72% FROM PRIOR YEAR**

**Third Quarter Fiscal 2024 Highlights**

(All comparisons against the third quarter of fiscal year 2023 unless otherwise noted)

- Delivered net sales of \$862M, down 6%, primarily driven by temporary spending pauses in telecom and broadband
- Achieved GM of 28.9%, +570 bps, including \$59M benefit from Inflation Reduction Act / IRC 45X tax credits
- Achieved adjusted GM<sup>(b)</sup> of 30.7%, +760 bps; excluding \$59M benefit from IRC 45X tax credits 23.9%, up 80 bps
- Generated operating earnings of \$93M, +18%, and adjusted operating earnings<sup>(2)</sup> of \$130M, +53%
- Realized diluted EPS of \$1.86, +72%, and adjusted diluted EPS<sup>(1)</sup> of \$2.56, +102%
- Reduced net leverage<sup>(a)</sup> to 1.1 X EBITDA on operating cash flow of \$135M
- Published second annual Task Force on Climate-Related Financial Disclosure (TCFD) Report
- Subsequent to the quarter end, issued \$300M aggregate principal 6.625% senior notes due 2032

READING, Pa., February 7, 2024 (BUSINESS WIRE) -- EnerSys (NYSE: ENS), the global leader in stored energy solutions for industrial applications, announced today results for its third quarter of fiscal 2024, which ended on December 31, 2023.

**Message from the CEO**

We were pleased to deliver the third quarter of fiscal 2024 with adjusted EPS above the midpoint of our guidance range. Sales were lower versus the prior year as we continue to see demand pauses in the telecom and broadband markets as well as a return to normalcy in Motive Power orders, partially offset by strength in Specialty, services, and data centers, particularly in the Americas. We continue to hold price, a testament to the customer value we deliver. Order rates improved in the quarter with book-to-bill of 1.0. Motive Power delivered strong operating earnings in the quarter supported by ongoing increases in maintenance-free system sales. We are making consistent progress towards delivering the first 15 Fast Charge & Storage (FC&S) systems for our launch customer with installations targeted to begin this summer and our sales pipeline continues to grow as this new line of business has begun to materialize. We are continuing to take decisive actions to reduce our costs in the current lower telecom and broadband demand environment and are rebalancing our production lines to increase productivity.

During the quarter, based on additional proposed regulations issued by the U.S. Department of Treasury regarding Section 45X of the Internal Revenue Code, we concluded that more of our battery sales than previously anticipated qualify for the related tax credits, which supported our gross margin of 28.9%. As a result, we recorded a benefit of \$59 million, including \$29 million of retroactive credits. We now expect our estimated annual IRC 45X tax credits to be in the range of \$120 million to \$160 million.

Our balance sheet was a highlight this quarter with operating cash flow conversion of 177% and adjusted free cash flow conversion<sup>(b)</sup> 106%, which lowered leverage to 1.1X EBITDA. We reduced inventory through a targeted approach to specific raw materials and products.

We continue to methodically execute on our strategic growth plans. We remain highly confident in EnerSys's position as a global leader in electrification and energy storage applications, with demand driven by critical global megatrends. With our industry-leading system solutions and strong customer relationships, we are well-positioned for growth in our diverse end markets.

David M. Shaffer, President and Chief Executive Officer, EnerSys

(a) Net leverage ratio is a non-GAAP financial measure as defined pursuant to our credit agreement and discussed under *Reconciliations of GAAP to Non-GAAP Financial Measures*.

(b) Adjusted gross margin, and adjusted free cash flow conversion are non-GAAP financial measures defined and discussed under *Reconciliations of GAAP to Non-GAAP Financial Measures*.

(1) Adjusted Diluted EPS is a non-GAAP financial measure and discussed under *Reconciliations of GAAP to Non-GAAP Financial Measures*.

(2) Operating Earnings are adjusted for charges that the Company incurs as a result of restructuring and exit activities, impairment of goodwill and indefinite-lived intangibles and other assets, acquisition activities and those charges and credits that are not directly related to operating unit performance. A reconciliation of operating earnings to Non-GAAP Adjusted Earnings are provided in tables under the section titled *Business Segment Operating Results*.

(3) Net Earnings are adjusted for depreciation, amortization, interest and income taxes to arrive at Non-GAAP EBITDA. Non-GAAP Adjusted EBITDA is further adjusted for certain charges such as restructuring and exit activities, impairment of goodwill and indefinite-lived intangibles and other assets, acquisition activities and other charges and credits as discussed under *Reconciliations of GAAP to Non-GAAP Financial Measures*.

## Summary of Results

### Third Quarter 2024

Net sales for the third quarter of fiscal 2024 were \$861.5 million, a decrease of 6.4% from the prior year third quarter net sales of \$920.2 million. The decrease compared to prior year quarter was the result of a 7% decrease in organic volume, partially offset by a 1% increase in pricing.

Net earnings attributable to EnerSys stockholders (“Net earnings”) for the third quarter of fiscal 2024 was \$76.2 million, or \$1.86 per diluted share, which included an unfavorable highlighted net of tax impact of \$28.8 million, or \$0.70 per diluted share, from highlighted items described in further detail in the tables shown below, reconciling non-GAAP adjusted financial measures to reported amounts.

Net earnings for the third quarter of fiscal 2023 was \$44.4 million, or \$1.08 per diluted share, which included an unfavorable highlighted net of tax impact of \$7.9 million, or \$0.19 per diluted share, from highlighted items described in further detail in the tables shown below, reconciling non-GAAP adjusted financial measures to reported amounts.

Excluding these highlighted items, adjusted Net earnings per diluted share for the third quarter of fiscal 2024, on a non-GAAP basis, were \$2.56, compared to the guidance of \$2.50 to \$2.60 per diluted share for the third quarter given by the Company on December 19, 2023. These earnings compare to the prior year third quarter adjusted Net earnings of \$1.27 per diluted share. Please refer to the section included herein under the heading “Reconciliations of GAAP to Non-GAAP Financial Measures” for

a discussion of the Company's use of non-GAAP adjusted financial information, which includes tables reconciling GAAP and non-GAAP adjusted financial measures for the quarters ended December 31, 2023 and January 1, 2023.

In the first quarter of fiscal 2024, we introduced a new line of business, New Ventures, that includes energy storage and management systems for demand charge reduction, utility back-up power, and dynamic fast charging for electric vehicles. The financial results of the New Ventures segment includes start up operating expenses and is included in the Corporate and other line in our operating earnings.

## **Fiscal Year to Date 2024**

Net sales for the nine months of fiscal 2024 were \$2,671.1 million, a decrease of 1.7% from the prior year nine months net sales of \$2,718.6 million. This decrease was due to an 8% decrease in organic volume, partially offset by a 5% increase in pricing and a 1% increase in foreign currency translation.

Net earnings for the nine months of fiscal 2024 was \$208.2 million, or \$5.02 per diluted share, which included an unfavorable highlighted net of tax impact of \$51.9 million, or \$1.25 per diluted share, from highlighted items described in further detail in the tables shown below, reconciling non-GAAP adjusted financial measures to reported amounts.

Net earnings for the nine months of fiscal 2023 was \$109.9 million, or \$2.66 per diluted share, which included an unfavorable highlighted net of tax impact of \$35.5 million, or \$0.86 per diluted share, from highlighted items described in further detail in the tables shown below, reconciling non-GAAP adjusted financial measures to reported amounts.

Adjusted Net earnings per diluted share for the nine months of fiscal 2024, on a non-GAAP basis, were \$6.27. This compares to the prior year nine months adjusted Net earnings of \$3.52 per diluted share. Please refer to the section included herein under the heading "Reconciliations of GAAP to Non-GAAP Financial Measures" for a discussion of the Company's use of non-GAAP adjusted financial information.

## **Fourth Quarter 2024 Outlook**

In the fourth quarter of fiscal 2024, we expect:

- Adjusted diluted earnings per share in the range of \$1.98 to \$2.08, inclusive of \$0.80 to \$0.90 from IRC 45X tax benefits under the IRA. Note that the IRS has not yet finalized guidance related to section 45X, which could materially increase or decrease the quantity of our U.S. produced batteries that qualify for this credit.
- Gross margin in the range of 26.0% to 28.0%, including 350bps to 410bps from IRA credits.
- For the full year of fiscal 2024, we expect capital expenditures to be in the range of \$80 million to \$100 million.

"We remain optimistic about the trajectory of our business and are particularly pleased with our continued ability to maintain pricing. While we are seeing healthy demand trends in the majority of our end markets, we are managing our business prudently to navigate the temporary spending pauses by our telecom and broadband customers. We are well-positioned to capitalize on market opportunities as we deliver innovative products that are strategically aligned with secular trends," said Andrea Funk, EnerSys Chief Financial Officer.

Please refer to the section included herein under the heading "Reconciliations of GAAP to Non-GAAP Financial Measures" for a discussion of the Company's use of non-GAAP adjusted financial information.

## **Conference Call and Webcast Details**

The Company will host a conference call to discuss its third quarter 2024 financial results at 9:00 AM (EST) Thursday, February 8, 2024. A live broadcast as well as a replay of the call can be accessed via <https://edge.media-server.com/mmc/p/ie42kc8w/> or the Investor Relations section of the company's website at <https://investor.enersys.com>.

To join the live call, please register at <https://register.vevent.com/register/B108ed58087c944a6ebf8d5ef243abafaa>. A dial-in and unique PIN will be provided upon registration.

## **About EnerSys**

EnerSys is the global leader in stored energy solutions for industrial applications and designs, manufactures and distributes energy systems solutions and motive power batteries, specialty batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure solutions to customers worldwide. The company goes to market through four lines of business: Energy Systems, Motive Power, Specialty and New Ventures. Energy Systems, which combine power conversion,

power distribution, energy storage, and enclosures, are used in the telecommunication, broadband, and utility industries, uninterruptible power supplies, and numerous applications requiring stored energy solutions. Motive power batteries and chargers are utilized in electric forklift trucks and other industrial electric powered vehicles. Specialty batteries are used in aerospace and defense applications, large over-the-road trucks, premium automotive, medical and security systems applications. New Ventures provides energy storage and management systems for various applications including demand charge reduction, utility back-up power, and dynamic fast charging for electric vehicles. EnerSys also provides aftermarket and customer support services to its customers in over 100 countries through its sales and manufacturing locations around the world. More information regarding EnerSys can be found at [www.enersys.com](http://www.enersys.com).

## **Sustainability**

Sustainability at EnerSys is about more than just the benefits and impacts of our products. Our commitment to sustainability encompasses many important environmental, social and governance issues. Sustainability is a fundamental part of how we manage our own operations. Minimizing our environmental footprint is a priority. Sustainability is our commitment to our employees, our customers and the communities we serve. Our products facilitate positive environmental, social, and economic impacts around the world. ## ***Caution Concerning Forward-Looking Statements***

This press release, and oral statements made regarding the subjects of this release, contains forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, or the Reform Act, which may include, but are not limited to, statements regarding EnerSys' earnings estimates, intention to pay quarterly cash dividends, return capital to stockholders, plans, objectives, expectations and intentions and other statements contained in this press release that are not historical facts, including statements identified by words such as "believe," "plan," "seek," "expect," "intend," "estimate," "anticipate," "will," and similar expressions. All statements addressing operating performance, events, or developments that EnerSys expects or anticipates will occur in the future, including statements relating to sales growth, earnings or earnings per share growth, order intake, backlog, payment of future cash dividends, commodity prices, execution of its stock buy back program, judicial or regulatory proceedings, ability to identify and realize benefits in connection with acquisition and disposition opportunities, and market share, as well as statements expressing optimism or pessimism about future operating results or benefits from its cash dividend, its stock buy back programs, application of Section 45X of the Internal Revenue Code, future responses to and effects of the pandemic, adverse developments with respect to the economic conditions in the U.S. in the markets in which we operate and other uncertainties, including the impact of supply chain disruptions, interest rate changes, inflationary pressures, geopolitical and other developments and labor shortages on the economic recovery and our business are forward-looking statements within the meaning of the Reform Act. The forward-looking statements are based on management's current views and assumptions regarding future events and operating performance, and are inherently subject to significant business, economic, and competitive uncertainties and contingencies and changes in circumstances, many of which are beyond the Company's control. The statements in this press release are made as of the date of this press release, even if subsequently made available by EnerSys on its website or otherwise. EnerSys does not undertake any obligation to update or revise these statements to reflect events or circumstances occurring after the date of this press release.

Although EnerSys does not make forward-looking statements unless it believes it has a reasonable basis for doing so, EnerSys cannot guarantee their accuracy. The foregoing factors, among others, could cause actual results to differ materially from those described in these forward-looking statements. For a list of other factors which could affect EnerSys' results, including earnings estimates, see EnerSys' filings with the Securities and Exchange Commission, including "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations," and "Forward-Looking Statements," set forth in EnerSys' Annual Report on Form 10-K for the fiscal year ended March 31, 2023. No undue reliance should be placed on any forward-looking statements.

## Reconciliations of GAAP to Non-GAAP Financial Measures

This press release contains financial information determined by methods other than in accordance with U.S. Generally Accepted Accounting Principles, ("GAAP"). EnerSys' management uses the non-GAAP measures "adjusted Net earnings", "adjusted Diluted EPS", "adjusted operating earnings", "adjusted gross margin", "adjusted EBITDA", "adjusted EBITDA per credit agreement", "net debt", "net leverage ratio", "adjusted free cash flow conversion", "net sales at constant currency", and "net sales growth rate at constant currency" as applicable, in their analysis of the Company's performance. Adjusted Net earnings, adjusted gross margin, and adjusted operating earnings measures, as used by EnerSys in past quarters and years, adjusts Net earnings and operating earnings determined in accordance with GAAP to reflect changes in financial results associated with the Company's restructuring initiatives and other highlighted charges and income items. Adjusted EBITDA is a key performance measure that our management uses to assess our operating performance. Because Adjusted EBITDA facilitates internal comparisons of our historical operating performance on a more consistent basis, we use this measure as an overall assessment of our performance, to evaluate the effectiveness of our business strategies and for business planning purposes. We calculate Adjusted EBITDA as net income before interest income, interest expense, other (income) expense net, provision (benefit) for income taxes, depreciation and amortization, further adjusted to exclude restructuring and exit activities, impairment of goodwill, indefinite-lived intangibles and other assets, acquisition activities and those charges and credits that are not directly related to operating unit performance. EBITDA is calculated as net income before interest income, interest expense, other (income) expense net, provision (benefit) for income taxes, depreciation and amortization. We define non-GAAP adjusted EBITDA per credit agreement as net earnings determined in accordance with GAAP for interest, taxes, depreciation and amortization, and certain charges or credits as permitted by our credit agreements, that were recorded during the periods presented. We define non-GAAP net debt as total debt, finance lease obligations and letters of credit, net of all cash and cash equivalents, as defined in the Fourth Amended Credit Facility on the balance sheet as of the end of the most recent fiscal quarter. We define non-GAAP net leverage ratio as non-GAAP net debt divided by last twelve months non-GAAP adjusted EBITDA per credit agreement. We define non-GAAP free cash flow as net cash provided by or used in operating activities less capital expenditures. We define non-GAAP adjusted free cash flow conversion as free cash flow divided by adjusted net earnings. Free cash flow and adjusted free cash flow conversion are used by investors, financial analysts, rating agencies and management to help evaluate the Company's ability to generate cash to pursue incremental opportunities aimed toward enhancing shareholder value. We define non-GAAP constant currency net sales as total net sales excluding the effect of foreign exchange rate movements, and we use it to determine the constant currency growth rate on a year-on-year basis. Non-GAAP constant currency revenues are calculated by translating current period revenues using the prior comparative periods' actual exchange rates, rather than the actual exchange rates in effect during the current period. Constant currency net sales growth rate is calculated by determining the difference between current period non-GAAP constant currency net sales and current period reported net sales divided by prior period as reported net sales. Management believes the presentation of these financial measures reflecting these non-GAAP adjustments provides important supplemental information in evaluating the operating results of the Company as distinct from results that include items that are not indicative of ongoing operating results and overall business performance; in particular, those charges that the Company incurs as a result of restructuring activities, impairment of goodwill and indefinite-lived intangibles and other assets, acquisition activities and those charges and credits that are not directly related to operating unit performance, such as significant legal proceedings, amortization of Alpha and NorthStar related intangible assets (and, beginning in fiscal 2024, amortization of all intangible assets) and tax valuation allowance changes, including those related to the AHV (Old-Age and Survivors Insurance) Financing (TRAF) in Switzerland. Because these charges are not incurred as a result of ongoing operations, or are incurred as a result of a potential or previous acquisition, they are not as helpful a measure of the performance of our underlying business, particularly in light of their unpredictable nature and are difficult to forecast. Although we exclude the amortization of purchased intangibles from these non-GAAP measures, management believes that it is important for investors to understand that such intangible assets were recorded as part of purchase accounting and contribute to revenue generation.

Income tax effects of non-GAAP adjustments are calculated using the applicable statutory tax rate for the jurisdictions in which the charges (benefits) are incurred, while taking into consideration any valuation allowances. For those items which are non-taxable, the tax expense (benefit) is calculated at 0%.

EnerSys does not provide a quantitative reconciliation of the company's projected range for adjusted diluted earnings per share for the fourth quarter of fiscal 2024 to diluted earnings per share, which is the most directly comparable GAAP measure, in reliance on the unreasonable efforts exception provided under Item 10(e)(1)(i)(B) of Regulation S-K. EnerSys' adjusted diluted earnings per share guidance for the fourth quarter of fiscal 2024 excludes certain items, including but not limited to certain non-cash, large and/or unpredictable charges and benefits, charges from restructuring and exit activities, impairment of goodwill and indefinite-lived intangibles, acquisition and disposition activities, legal judgments, settlements, or other matters, and tax positions, that are inherently uncertain and difficult to predict, can be dependent on future events that are less capable of being controlled or reliably predicted by management and are not part of the Company's routine operating activities can be dependent on future events that are less capable of being controlled or reliably predicted by management and are not part of the Company's routine operating activities. Due to the uncertainty of the occurrence or timing of these future excluded items, management cannot accurately forecast many of these items for internal use and therefore cannot create a quantitative adjusted diluted earnings per share for the fourth quarter of fiscal 2024 to diluted earnings per share reconciliation without unreasonable efforts.

These non-GAAP disclosures have limitations as an analytical tool, should not be viewed as a substitute for operating earnings, Net earnings or net income determined in accordance with GAAP, and should not be considered in isolation or as a substitute for analysis of the Company's results as reported under GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies. Management believes that this non-GAAP supplemental information will be helpful in understanding the Company's ongoing operating results. This supplemental presentation should not be construed as an inference that the Company's future results will be unaffected by similar adjustments to Net earnings determined in accordance with GAAP.

A reconciliation of non-GAAP net sales and growth rates in constant currency are set forth in the table below, providing a reconciliation of non-GAAP constant currency net sales to the Company's reported net sales for its business segments.

	Quarter ended (\$ millions)			Nine months ended (\$ millions)		
	December 31, 2023	January 1, 2023	Growth rate	December 31, 2023	January 1, 2023	Growth rate
Energy Systems reported net sales	\$ 373.5	\$ 434.3	(14.0)%	\$ 1,220.6	\$ 1,279.9	(4.6)%
Exchange rate effect	1.2			3.6		
Energy Systems constant currency net sales	<u>374.7</u>		(13.7)	<u>1,224.2</u>		(4.4)
Motive Power reported net sales	\$ 355.4	\$ 361.8	(1.8)%	\$ 1,061.4	\$ 1,067.7	(0.6)%
Exchange rate effect	(0.9)			(5.2)		
Motive Power constant currency net sales	<u>354.5</u>		(2.0)	<u>1,056.2</u>		(1.1)
Specialty reported net sales	\$ 132.6	\$ 124.1	6.8 %	\$ 389.1	\$ 371.0	4.9 %
Exchange rate effect	(1.1)			(3.0)		
Specialty constant currency net sales	<u>131.5</u>		6.0	<u>386.1</u>		4.0
Total reported net sales	\$ 861.5	\$ 920.2	(6.4)%	\$ 2,671.1	\$ 2,718.6	(1.7)%
Exchange rate effect	(0.8)			(4.6)		
Total constant currency net sales	<u>860.7</u>		(6.5)	<u>2,666.5</u>		(1.9)

A reconciliation of non-GAAP adjusted operating earnings is set forth in the table below, providing a reconciliation of non-GAAP adjusted operating earnings to the Company's reported operating results for its business segments. Corporate and other includes amounts managed on a company-wide basis and not directly allocated to any reportable segments, primarily relating to IRA production tax credits. Also, included are start up costs for exploration of a new lithium plant as well as start-up operating expenses from the New Ventures operating segment.

Adjusted free cash flow conversion %	106.1 %	360.0 %	100.4 %	53.9 %

The following table provides a reconciliation of Net earnings to EBITDA (non-GAAP) and adjusted EBITDA (non-GAAP) per credit agreement for December 31, 2023 and January 1, 2023, in connection with the Fourth Amended Credit Facility:

	Last twelve months	
	December 31, 2023	January 1, 2023
	(in millions, except ratios)	
Net earnings as reported	\$ 274.1	\$ 137.9
Add back:		
Depreciation and amortization	90.5	92.6
Interest expense	54.1	53.9
Income tax expense	27.3	35.8
EBITDA (non-GAAP)	446.0	320.2
Adjustments per credit agreement definitions <sup>(1)</sup>	78.6	59.8
Adjusted EBITDA (non-GAAP) per credit agreement <sup>(1)</sup>	\$ 524.6	\$ 380.0
Total net debt <sup>(2)</sup>	586.9	858.9
Leverage ratios:		
Total net debt/credit adjusted EBITDA ratio	1.1 X	2.3 X

(1) The \$78.6 million adjustment to EBITDA in the last twelve months ending December 31, 2023 primarily related to \$30.5 million of non-cash stock compensation, \$37.9 million of restructuring and other exit charges, impairment of indefinite-lived intangibles and write-down of other current assets of \$9.6 million. The \$59.8 million adjustment to EBITDA in the last twelve months ending January 1, 2023 primarily related to \$27.2 million of non-cash stock compensation, \$29.1 million of restructuring and other exit charges, impairment of indefinite-lived intangibles of \$2.1 million and a swap termination fee of \$1.4 million.

(2) Debt includes finance lease obligations and letters of credit and is net of all U.S. cash and cash equivalents and foreign cash and investments, as defined in the Fourth Amended Credit Facility. In the last last twelve months ending December 31, 2023 and January 1, 2023, the amounts deducted in the calculation of net debt were U.S. cash and cash equivalents and foreign cash investments of \$332.7 million, and in fiscal 2023, were \$298.1 million.

Included below is a reconciliation of historical non-GAAP adjusted Net earnings to reported amounts. Non-GAAP adjusted operating earnings and historical Net earnings are calculated excluding restructuring and other highlighted charges and credits. The following tables provide additional information regarding certain non-GAAP measures:

	Quarter ended

## Exhibit 99.2

### **ENERSYS ANNOUNCES DIVIDEND of \$0.225 PER SHARE FOR THE FOURTH QUARTER OF FISCAL YEAR 2024**

Reading, PA, USA, February 7, 2024 – EnerSys (NYSE: ENS), the global leader in stored energy solutions for industrial applications, announced today that its Board of Directors has declared a quarterly cash dividend of \$0.225 per share of common stock payable on March 29, 2024, to holders of record as of March 15, 2024.

#### **About EnerSys**

EnerSys is the global leader in stored energy solutions for industrial applications and designs, manufactures and distributes energy systems solutions and motive power batteries, specialty batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure solutions to customers worldwide. The company goes to market through four lines of business: Energy Systems, Motive Power, Specialty and New Ventures. Energy Systems, which combine power conversion, power distribution, energy storage, and enclosures, are used in the telecommunication, broadband and utility industries, uninterruptible power supplies, and numerous applications requiring stored energy solutions. Motive power batteries and chargers are utilized in electric forklift trucks and other industrial electric powered vehicles. Specialty batteries are used in aerospace and defense applications, large over-the-road trucks, premium automotive, medical and security systems applications. New Ventures provides energy storage and management systems for various applications including demand charge reduction, utility back-up power, and dynamic fast charging for electric vehicles. EnerSys also provides aftermarket and customer support services to its customers in over 100 countries through its sales and manufacturing locations around the world. More information regarding EnerSys can be found at [www.enersys.com](http://www.enersys.com).

#### **Sustainability**

Sustainability at EnerSys is about more than just the benefits and impacts of our products. Our commitment to sustainability encompasses many important environmental, social and governance issues. Sustainability is a fundamental part of how we manage our own operations. Minimizing our environmental footprint is a priority. Sustainability is our commitment to our employees, our customers and the communities we serve. Our products facilitate positive environmental, social and economic impacts around the world. #### ***Caution Concerning Forward-Looking Statements***

This press release, and oral statements made regarding the subjects of this release, contains forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, or the Reform Act, which may include, but are not limited to, statements regarding EnerSys' earnings estimates, intention to return capital to stockholders, plans, objectives, expectations and intentions and other statements contained in this press release that are not historical facts, including statements identified by words such as "believe," "plan," "seek," "expect," "intend," "estimate," "anticipate," "will," and similar expressions. All statements addressing operating performance, events, or developments that EnerSys expects or anticipates will occur in the future, including statements relating to sales growth, continuing to pay cash dividends at the current rate, earnings or earnings per share growth, its intention to pay quarterly cash dividends and return capital to stockholders, execution of its stock repurchase program, and market share, as well as statements expressing optimism or pessimism about future operating results or benefits from either its cash dividend or its stock repurchase programs, are forward-looking statements within the meaning of the Reform Act. The forward-looking statements are based on management's current views and assumptions regarding future events and operating performance, and are inherently subject to significant business, economic, and competitive uncertainties and contingencies and changes in circumstances, many of which are beyond EnerSys' control. The statements in this press release are made as of the date of this press release, even if subsequently made available by EnerSys on its website or otherwise. EnerSys does not undertake any obligation to update or revise these statements to reflect events or circumstances occurring after the date of this press release.

Although EnerSys does not make forward-looking statements unless it believes it has a reasonable basis for doing so, EnerSys cannot guarantee their accuracy. For a list of other factors which could affect EnerSys' results, including earnings estimates, see EnerSys' filings with the Securities and Exchange Commission, including "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations," and "Forward-Looking Statements," set forth in EnerSys' Annual Report on Form 10-K for the fiscal year ended March 31, 2023. The foregoing factors, among others, could cause actual results to differ materially from those described in these forward-looking statements. No undue reliance should be placed on any forward-looking statements.
